

Engineering Principles & Robotics

Rules

Come to class on time and prepared
Follow instruction
Be kind to yourself and others
Maintain a clean and safe learning environment

Absences

Students should come to class whenever possible. If absence is not an emergency, it is expected that students email me beforehand. Students should be aware that if they are absent during a group project, they may be asked to complete the project on their own after.

Cellphones and Computers

Students should only use computers and cell phones for school use. If a student's phone is distracting them or others, I will take it away until the end of class. Use of cell phones and computers is a privilege and can be taken away if necessary.

Food and Drink

Food and drink is allowed in the classroom but not in the labs or at the computers. All drinks should have lids. Smelly food or any food containing a peer's allergens is not allowed. Students are expected to clean up after themselves or lose food and drink privileges.

Grading

Students will be graded on projects and tests. Although some work may be ungraded, it is expected that students complete all assignments to prepare them for projects/tests.

A	93-100%	C	73-76.9%
A-	90-92.9%	C-	70-72.9%
B+	87-89.9%	D+	67-69.9%
B	83-86.9%	D	63-66.9%
B-	80-82.9%	D-	60-62.9%
C+	77-79.9%	F	0-59.9%

Equipment and Safety

Students must score a 100% to pass the safety test and use the machine lab. Students should follow all safety procedures and never use equipment they are not familiar or comfortable with.

Students will each be assigned a workstation which they should keep clean and organized. Full participation is expected during end of class clean up.

Contact

Please feel free to contact me with any questions or concerns.
