INDEPENDENT AUDITOR'S COMBINED REPORT ON BASIC FINANCIAL
STATEMENTS AND SUPPLEMENTARY INFORMATION - SCHEDULE OF
EXPENDITURES OF FEDERAL AWARDS

Ladies and Gentlemen:

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information (Exhibits A through H) of the Tift County Board of Education, as of and for the year ended June 30, 2011, which collectively comprise the Board's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Tift County Board of Education's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Board's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to previously present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Tift County Board of Education, as of June 30, 2011, and the respective changes in financial position thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The Tift County Board of Education has not presented Management's Discussion and Analysis that accounting principles generally accepted in the United States of America has determined is necessary to supplement, although not to be part of, the basic financial statements.

In accordance with *Government Auditing Standards*, we have also issued our report dated March 26, 2012, on our consideration of the Tift County Board of Education's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The Schedule of Revenues, Expenditures and Changes in Fund Balances - Budget and Actual, as presented on page 25, is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Tift County Board of Education's financial statements as a whole. The accompanying supplementary information consists of Schedules 2 through 5, which includes the Schedule of Expenditures of Federal Awards as required by U. S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, are presented for purposes of additional analysis and are not a required part of the financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, the information is fairly stated, in all material respects, in relation to the financial statements as a whole.

A copy of this report has been filed as a permanent record in the office of the State Auditor and made available to the press of the State, as provided for by Official Code of Georgia Annotated section 50-6-24.

Respectfully submitted,

Russell W. Hinton, CPA, CGFM
State Auditor

NOTE 1: DESCRIPTION OF SCHOOL DISTRICT AND REPORTING ENTITY

REPORTING ENTITY

The Tift County Board of Education (School District) was established under the laws of the State of Georgia and operates under the guidance of a school board elected by the voters and a Superintendent appointed by the Board. The Board is organized as a separate legal entity and has the power to levy taxes and issue bonds. Its budget is not subject to approval by any other entity. Accordingly, the School District is a primary government and consists of all the organizations that compose its legal entity.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF PRESENTATION

The School District's basic financial statements are collectively comprised of the District-wide financial statements, fund financial statements and notes to the basic financial statements of the Tift County Board of Education.

District-wide Statements:

The Statement of Net Assets and the Statement of Activities display information about the financial activities of the overall School District, except for fiduciary activities. Eliminations have been made to minimize the double counting of internal activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions.

The Statement of Activities presents a comparison between direct expenses and program revenues for each function of the School District's governmental activities.

- Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Indirect expenses (expenses of the School District related to the administration and support of the School District's programs, such as office and maintenance personnel and accounting) are not allocated to programs.
- Program revenues include (a) charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements:

The fund financial statements provide information about the School District's funds. Eliminations have been made to minimize the double counting of internal activities. Separate statements for each category (governmental and fiduciary) are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column.

The School District reports the following major governmental funds:

- General Fund is the School District's primary operating fund. It accounts for and reports all financial resources not accounted for and reported in another fund.
- District-wide Capital Projects Fund accounts for and reports financial resources including Special Purpose Local Option Sales Tax (SPLOST) and grants from Georgia State Financing and Investment Commission that are restricted, committed or assigned to the expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets.

The School District reports the following fiduciary fund type:

- Agency funds account for assets held by the School District as an agent for various funds, governments or individuals.

BASIS OF ACCOUNTING

The basis of accounting determines when transactions are reported on the financial statements. The District-wide governmental (governmental and fiduciary) financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the School District gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, sales taxes, and grants. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from sales taxes is recognized in the fiscal year in which the underlying transaction (sale) takes place. Revenue from grants is recognized in the fiscal year in which all eligibility requirements have been satisfied.

The School District uses funds to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain governmental functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts.

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The School District considers all revenues reported in the governmental funds to be available if they are collected within sixty days after year-end. Property taxes, sales taxes and interest are considered to be susceptible to accrual. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on long-term debt which are recognized as expenditures to the extent they have matured. Capital asset acquisitions are reported as expenditures in governmental funds. Acquisitions under capital leases are reported as other financing sources.

The School District funds certain programs by a combination of specific cost-reimbursement grants, categorical grants, and general revenues. Thus, when program costs are incurred, there are both restricted and unrestricted net assets available to finance the program. It is the School District's policy to first apply grant resources to such programs, followed by cost-reimbursement grants, then general revenues.

The State of Georgia reimburses the School System for teachers' salaries and operating costs through the Quality Basic Education Formula Earnings program (QBE). Generally teachers are contracted for the school year (July 1 – June 30) and paid over a twelve month contract period, generally September 1 through August 31. In accordance with the respective rules and regulations of the QBE program, the State of Georgia reimburses the School System over the same twelve month period in which teachers are paid. At June 30, the amount of teachers' salaries incurred but not paid until July and August of the subsequent year are accrued. Since the State of Georgia recognizes its QBE liability for the July and August salaries at June 30, the School System recognizes the same QBE as a receivable and revenue, consistent with symmetrical recognition.

NEW ACCOUNTING PRONOUNCEMENTS

In fiscal year 2011, the School District adopted the Governmental Accounting Standards Board (GASB) Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. The provisions of this Statement establish accounting and financial reporting standards for all

governments that report governmental funds. It establishes criteria for classifying fund balances into specifically defined classifications and clarifies definitions for governmental funds.

CASH AND CASH EQUIVALENTS

Composition of Deposits

Cash and cash equivalents consist of cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition in authorized financial institutions. Official Code of Georgia Annotated Section 45-8-14 authorizes the School District to deposit its funds in one or more solvent banks, insured Federal savings and loan associations or insured chartered building and loan associations.

INVESTMENTS

Composition of Investments

Investments made by the School District in nonparticipating interest-earning contracts (such as certificates of deposit) and repurchase agreements are reported at cost. Participating interest-earning contracts and money market investments with a maturity at purchase of one year or less are reported at amortized cost. Both participating interest-earning contracts and money market investments with a maturity at purchase greater than one year are reported at fair value. The Official Code of Georgia Annotated Section 36-83-4 authorizes the School District to invest its funds. In selecting among options for investment or among institutional bids for deposits, the highest rate of return shall be the objective, given equivalent conditions of safety and liquidity. Funds may be invested in the following:

1. Obligations issued by the State of Georgia or by other states,
2. Obligations issued by the United States government,
3. Obligations fully insured or guaranteed by the United States government or a United States government agency,
4. Obligations of any corporation of the United States government,
5. Prime banker's acceptances,
6. The Georgia Fund 1 administered by the State of Georgia, Office of the State Treasurer,
7. Repurchase agreements, and
8. Obligations of other political subdivisions of the State of Georgia.

RECEIVABLES

Receivables consist of amounts due from property and sales taxes, grant reimbursements due on Federal, State or other grants for expenditures made but not reimbursed and other receivables disclosed from information available. Receivables are recorded when either the asset or revenue recognition criteria has been met. Receivables recorded on the basic financial statements do not include any amounts which would necessitate the need for an allowance for uncollectible receivables.

PROPERTY TAXES

The Tift County Board of Commissioners County Board of Commissioners fixed the property tax levy for the 2010 tax digest year (calendar year) on July 26, 2010 (levy date). Taxes were due on November 15, 2010 (lien date). Taxes collected within the current fiscal year or within 60 days after year-end on the 2010 tax digest are reported as revenue in the governmental funds for fiscal year

2011. The Tift County Board of Commissioners County Tax Commissioner bills and collects the property taxes for the School District, withholds 2.5% of taxes collected as a fee for tax collection and remits the balance of taxes collected to the School District. Property tax revenues, at the fund reporting level, during the fiscal year ended June 30, 2011, for maintenance and operations amounted to \$14,146,980.35.

Tax millage rates levied for the 2010 tax year (calendar year) for the Tift County Board of Education were as follows (a mill equals \$1 per thousand dollars of assessed value):

School Operations	<u>14.964</u> mills
-------------------	---------------------

SALES TAXES

Special Purpose Local Option Sales Tax, at the fund reporting level, during the year amounted to \$8,049,536.52 and is to be used for capital outlay for educational purposes. This sales tax was authorized by local referendum and the sales tax must be re-authorized at least every five years.

INVENTORIES

Food Inventories

On the basic financial statements, inventories of donated food commodities used in the preparation of meals are reported at their Federally assigned value and purchased foods inventories are reported at cost (first-in, first-out). The School District uses the consumption method to account for inventories whereby donated food commodities are recorded as an asset and as revenue when received, and expenses/expenditures are recorded as the inventory items are used. Purchased foods are recorded as an asset when purchased and expenses/expenditures are recorded as the inventory items are used.

CAPITAL ASSETS

Capital assets purchased, including capital outlay costs, are recorded as expenditures in the fund financial statements at the time of purchase (including ancillary charges). On the District-wide financial statements, all purchased capital assets are valued at cost where historical records are available and at estimated historical cost based on appraisals or deflated current replacement cost where no historical records exist. Donated capital assets are recorded at estimated fair market value on the date donated. Disposals are deleted at depreciated recorded cost. The cost of normal maintenance and repairs that do not add to the value of assets or materially extend the useful lives of the assets is not capitalized. Depreciation is computed using the straight-line method. The School District does not capitalize book collections or works of art. During the fiscal year under review, no events or changes in circumstances affecting a capital asset that may indicate impairment were known to the School District.

TIFT COUNTY BOARD OF EDUCATION
 NOTES TO THE BASIC FINANCIAL STATEMENTS
 JUNE 30, 2011

EXHIBIT "H"

Capitalization thresholds and estimated useful lives of capital assets reported in the District-wide statements are as follows:

	Capitalization Policy	Estimated Useful Life
Land	Any Amount	N/A
Land Improvements	\$ 50,000.00	20 Years
Buildings and Improvements	\$ 100,000.00	25 to 80 Years
Equipment	\$ 20,000.00	5 to 20 Years
Intangible Assets	\$ 500,000.00	10 to 20 Years

Depreciation is used to allocate the actual or estimated historical cost of all capital assets over estimated useful lives, with the exception of intangible assets which are amortized.

Amortization of intangible assets such as water, timber, and mineral rights, easements, patents, trademarks, copyrights and software is computed using the straight-line method over the estimated useful lives of the assets, generally 10 to 20 years.

NET ASSETS

The School District’s net assets in the District-wide Statements are classified as follows:

Invested in capital assets, net of related debt - This represents the School District’s total investment in capital assets, net of outstanding debt obligations related to those capital assets. To the extent debt has been incurred but not yet expended for capital assets, such amounts are not included as a component of invested in capital assets, net of related debt.

Restricted net assets - These represent resources for which the School District is legally or contractually obligated to spend resources for bus replacement, continuation of Federal Programs, and capital projects in accordance with restrictions imposed by external third parties.

Unrestricted net assets - Unrestricted net assets represent resources derived from property taxes, sales taxes, grants and contributions not restricted to specific programs, charges for services, and miscellaneous revenues. These resources are used for transactions relating to the educational and general operations of the School District, and may be used at the discretion of the Board to meet current expenses for those purposes.

FUND BALANCES

The School District’s fund balances are classified as follows:

Nonspendable – Amounts that cannot be spent either because they are in a nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted – Constraints are placed on the use of resources are either (1) externally imposed conditions by creditors, grantors, contributors, or laws and regulations of other governments or (2) imposed by law through constitutional provisions or enabling legislation.

Committed – Amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the Board of Education. The Board of Education is the School District’s highest level of decision-making authority, and the formal action that is required to be taken to establish, modify, or rescind a fund balance commitment is a resolution approved by the Board. Committed

fund balance also should incorporate contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned – Amounts that are constrained by the School District’s *intent* to be used for specific purposes, but are neither restricted nor committed. The intent should be expressed by (1) the Board of Education or (2) the budget or finance committee, or the Superintendent, or designee, to assign amounts to be used for specific purposes.

Unassigned – The residual classification for the General Fund. This classification represents fund balances that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the General Fund.

Fund Balances of the Governmental Funds at June 30, 2011, are as follows:

Nonspendable					
Inventories			\$		118,246.18
Restricted					
Bus Replacement	\$	17,650.00			
Continuation of Federal Programs		1,970,187.56			
Capital Projects		7,155,917.54			9,143,755.10
Assigned					
Other-School Activity Accounts					261,111.86
Unassigned					9,168,770.56
Fund Balance, June 30, 2011			\$		18,691,883.70

It is the goal of the School District to achieve and maintain a committed, assigned, and unassigned fund balance in the general fund at fiscal year-end of not less than 8% of expenditures, not to exceed 15% of the total budget of the subsequent fiscal year, in compliance with Official Code of Georgia Annotated Section 20-2-167(a)5. If the unassigned fund balance at fiscal year end falls below the goal, the School District shall develop a restoration plan to achieve and maintain the minimum fund balance.

When multiple categories of fund balance are available for expenditure, the School District will start with the most restricted category and spend those funds first before moving down to the next category with available funds.

USE OF ESTIMATES

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

NOTE 3: DEPOSITS AND INVESTMENTS

COLLATERALIZATION OF DEPOSITS

Official Code of Georgia Annotated (O.C.G.A.) Section 45-8-12 provides that there shall not be on deposit at any time in any depository for a time longer than ten days a sum of money which has not been secured by surety bond, by guarantee of insurance, or by collateral. The aggregate of the face

value of such surety bond and the market value of securities pledged shall be equal to not less than 110 percent of the public funds being secured after the deduction of the amount of deposit insurance. If a depository elects the pooled method (O.C.G.A. Section 45-8-13.1) the aggregate of the market value of the securities pledged to secure a pool of public funds shall be not less than 110 percent of the daily pool balance.

Acceptable security for deposits consists of any one of or any combination of the following:

1. Surety bond signed by a surety company duly qualified and authorized to transact business within the State of Georgia,
2. Insurance on accounts provided by the Federal Deposit Insurance Corporation,
3. Bonds, bills, notes, certificates of indebtedness or other direct obligations of the United States or of the State of Georgia,
4. Bonds, bills, notes, certificates of indebtedness or other obligations of the counties or municipalities of the State of Georgia,
5. Bonds of any public authority created by the laws of the State of Georgia, providing that the statute that created the authority authorized the use of the bonds for this purpose,
6. Industrial revenue bonds and bonds of development authorities created by the laws of the State of Georgia, and
7. Bonds, bills, notes, certificates of indebtedness, or other obligations of a subsidiary corporation of the United States government, which are fully guaranteed by the United States government both as to principal and interest or debt obligations issued by or securities guaranteed by the Federal Land Bank, the Federal Home Loan Bank, the Federal Intermediate Credit Bank, the Central Bank for Cooperatives, the Farm Credit Banks, the Federal Home Loan Mortgage Association, and the Federal National Mortgage Association.

CATEGORIZATION OF DEPOSITS

Custodial credit risk is the risk that in the event of a bank failure, the School District's deposits may not be returned to it. The School District does not have a formal policy for managing custodial credit risk. At June 30, 2011, the bank balances were \$15,248,372.27. The bank balances were entirely covered by Federal depository insurance or collateralized with securities held by the pledging financial institution in the School District's name.

CATEGORIZATION OF INVESTMENTS

At June 30, 2011, the carrying value of the School District's total investments was \$6,135,533.91, which is materially the same as fair value. This investment consisted entirely of funds invested in the Georgia Fund 1, formerly referred to as LGIP, administered by the State of Georgia, Office of the State Treasurer which are not required to be categorized since the School District did not own any specific identifiable securities in the pool. The investment policy of the State of Georgia, Office of the State Treasurer for the Georgia Fund 1 (Primary Liquidity Portfolio) does not provide for investment in derivatives or similar investments. Additional information on the Georgia Fund 1 is disclosed in the *State of Georgia* Comprehensive Annual Financial Report. This audit can be obtained from the Georgia Department of Audits and Accounts at <http://www.audits.ga.gov/SGD/cafr.html>.

The Primary Liquidity Portfolio consists of Georgia Fund 1 which is not registered with the SEC as an investment company but does operate in a manner consistent with the SEC's Rule 2a-7 of the Investment Company Act of 1940. The investment is valued at the pool's share price, \$1.00 per share. The pool is an AAAM rated investment pool by Standard and Poor's. The weighted average

maturity of Georgia Fund 1 may not exceed 60 days. The weighted average maturity for Georgia Fund 1 on June 30, 2011, was 59 days.

NOTE 4: NON-MONETARY TRANSACTIONS

The School District receives food commodities from the United States Department of Agriculture (USDA) for school breakfast and lunch programs. These commodities are recorded at their Federally assigned value. **See Note 2 – Inventories**

NOTE 6: RISK MANAGEMENT

The School District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors or omissions; job related illness or injuries to employees; acts of God and unemployment compensation.

The School District has obtained commercial insurance for risk of loss associated with torts, assets, and errors or omissions. The School District has neither significantly reduced coverage for these risks nor incurred losses (settlements) which exceeded the School District's insurance coverage in any of the past three years.

The School District has elected to self-insure for all losses related to acts of God. The School District has not experienced any losses related to this risk in the past three years.

The School District is self-insured with regard to unemployment compensation claims. The School District accounts for claims within the same fund that the employee's salary and benefits were paid. Claims are accounted for with expenditure and liability being reported when it is probable that a loss has occurred, and the amount of that loss can be reasonably estimated.

Changes in the unemployment compensation claims liability during the last two fiscal years are as follows:

		Beginning of Year Liability	Claims and Changes in Estimates	Claims Paid	End of Year Liability
	\$				
2010	\$	12,685.00	\$ 50,391.00	\$ 63,076.00	\$ 0.00
2011	\$	0.00	\$ 21,654.00	\$ 20,659.00	\$ 995.00

The School District participates in the Georgia Education Workers' Compensation Trust, a public entity risk pool organized on December 1, 1991, to develop, implement and administer a program of workers' compensation self-insurance for its member organizations. The School District pays an annual premium to the Trust for its general insurance coverage. Additional insurance coverage is

provided through an agreement by the Trust with the Safety National Casualty Company to provide coverage for potential losses sustained by the Trust in excess of \$1, 00,000.00 loss per occurrence, up to the statutory limit. Employers' Liability insurance coverage is also provided by Safety National Casualty Company with a loss fund percentage of 100%, based on the Fund's annual normal premium, up to a maximum limit of indemnity of aggregate limit of \$2,000,000.

The School District has purchased surety bonds to provide additional insurance coverage as follows:

Position Covered	Amount
Superintendent	\$ 100,000.00
Comptroller	\$ 100,000.00
High School Principal	\$ 100,000.00
Middle School Principal	\$ 100,000.00
Each Employee	\$ 10,000.00

NOTE 7: LONG-TERM DEBT

CAPITAL LEASES

The Tift County Board of Education entered into various lease agreements for computer equipment. These lease agreements qualify as capital leases for accounting purposes, and, therefore, have been recorded at the present value of the future minimum lease payments as of the date of their inception.

The changes in Long-Term Debt during the fiscal year ended June 30, 2011, were as follows:

	Governmental Funds				
	Balance July 1, 2010	Additions	Deductions	Balance June 30, 2011	Due Within One Year
Capital Leases	\$ 768,572.33	\$ 959,765.00	\$ 745,551.91	\$ 982,785.42	\$ 558,825.11

At June 30, 2011, payments due by fiscal year which includes principal and interest for these items are as follows:

Fiscal Year Ended June 30:	Capital Leases	
	Principal	Interest
2012	\$ 558,825.11	\$ 40,121.42
2013	355,289.06	16,155.17
2014	68,671.25	2,498.75
Total Principal and Interest	\$ 982,785.42	\$ 58,775.34

NOTE 8: ON-BEHALF PAYMENTS

The School District has recognized revenues and costs in the amount of \$195,778.67 for health insurance and retirement contributions paid on the School District's behalf by the following State Agencies.

Georgia Department of Education

Paid to the Georgia Department of Community Health
 For Health Insurance of Non-Certificated Personnel
 In the amount of \$100,143.05

Paid to the Teachers Retirement System of Georgia
 For Teachers Retirement System (TRS) Employer's Cost
 In the amount of \$69,433.62

Office of the State Treasurer

Paid to the Public School Employees Retirement System
 For Public School Employees Retirement (PSERS) Employer's Cost
 In the amount of \$26,202.00

NOTE 9: SIGNIFICANT COMMITMENTS

The following is an analysis of significant outstanding construction or renovation contracts executed by the School District as of June 30, 2011, together with funding available:

Project	Unearned Executed Contracts	Funding Available From State
NorthEast Campus	\$ 2,469,330.14	\$ 253,375.47
Canning Plant	100,570.51	
	\$ 2,569,900.65	\$ 253,375.47

The amounts described in this note are not reflected in the basic financial statements.

NOTE 10: SIGNIFICANT CONTINGENT LIABILITIES

Amounts received or receivable principally from the Federal government are subject to audit and review by grantor agencies. This could result in requests for reimbursement to the grantor agency for any costs which are disallowed under grant terms. The School District believes that such disallowances, if any, will be immaterial to its overall financial position.

The School District is a defendant in various legal proceedings pertaining to matters incidental to the performance of routine School District operations. The ultimate disposition of these proceedings is not presently determinable, but is not believed to be material to the basic financial statements.

On October 27, 2009, a consent order of liquidation was entered in the case of State of Georgia, Ex. Rel., John W. Oxendine, Commissioner of Insurance of the State of Georgia v. Southeastern U.S. Insurance, Inc., a Georgia Insurer. Tift County Board of Education was an insured of the defendant for workers' compensation purposes. As of the date of the order of liquidation, the School District was no longer covered by its workers' compensation policy with the defendant. It is difficult to ascertain the number of outstanding claims, if any, for which the School District is liable. We are currently unable to determine any amounts for which the School District may be liable. The School District has obtained workers' compensation insurance from another carrier.

NOTE 11: POST-EMPLOYMENT BENEFITS

GEORGIA SCHOOL PERSONNEL EMPLOYEES POST-EMPLOYMENT HEALTH BENEFIT FUND

Plan Description. The Georgia School Personnel Post-employment Health Benefit Fund (School OPEB Fund) is a cost-sharing multiple-employer defined benefit post-employment healthcare plan that covers eligible former employees of public school systems, libraries and regional educational service agencies. The School OPEB Fund provides health insurance benefits to eligible former employees and their qualified beneficiaries through the State Employees Health Benefit Plan administered by the Department of Community Health. The Official Code of Georgia Annotated (O.C.G.A.) assigns the authority to establish and amend the benefit provisions of the group health plans, including benefits for retirees, to the Board of Community Health (Board).

Funding Policy. The contribution requirements of plan members and participating employers are established by the Board in accordance with the current Appropriations Act and may be amended by the Board. Contributions of plan members or beneficiaries receiving benefits vary based on plan election, dependent coverage, and Medicare eligibility and election. On average, plan members pay approximately 25 percent of the cost of the health insurance coverage.

Participating employers are statutorily required to contribute in accordance with the employer contribution rates established by the Board. The contribution rates are established to fund all benefits due under the health insurance plans for both active and retired employees based on projected "pay-as-you-go" financing requirements. Contributions are not based on the actuarially calculated annual required contribution (ARC) which represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

The combined active and retiree contribution rates established by the Board for employers participating in the School OPEB Fund were as follows for the fiscal year ended June 30, 2011:

For certificated teachers, librarians and regional educational service agencies:

July 2010 –April 2011	21.955% of covered payroll for August– April Coverage
May 2011 – June 2011	1.429% of covered payroll for –June – July Coverage

For non-certificated school personnel:

July 2010 – December 2010	\$162.72 per member per month
January 2011 – May 2011	\$218.20 per member per month
June 2011	\$246.20 per member per month

The Department of Education was appropriated an additional \$25,081,633 for non-certificated personnel health insurance payments. The amount attributable to the School District is reflected in the On-behalf note disclosure.

No additional contribution was required by the Board for fiscal year 2011 nor contributed to the School OPEB Fund to prefund retiree benefits. Such additional contribution amounts are determined annually by the Board in accordance with the School plan for other post-employment benefits and are subject to appropriation.

The School District's combined active and retiree contributions to the health insurance plans, which equaled the required contribution, for the current fiscal year and the preceding two fiscal years were as follows:

Fiscal Year	Percentage Contributed		Required Contribution
2011	100%	\$	6,835,585.60
2010	100%	\$	6,194,407.67
2009	100%	\$	4,618,516.08

NOTE 12: RETIREMENT PLANS

TEACHERS RETIREMENT SYSTEM OF GEORGIA (TRS)

Plan Description. The TRS is a cost-sharing multiple-employer defined benefit plan created in 1943 by an act of the Georgia General Assembly to provide retirement benefits for qualifying employees in educational service. A Board of Trustees comprised of active and retired members and ex-officio State employees is ultimately responsible for the administration of TRS. The Teachers Retirement System of Georgia issues a separate stand alone financial audit report and a copy can be obtained from the Georgia Department of Audits and Accounts.

On October 25, 1996, the Board created the Supplemental Retirement Benefits Plan of the Georgia Teachers Retirement System (SRBP-TRS). SRBP-TRS was established as a qualified excess benefit plan in accordance with Section 415 of the Internal Revenue Code (IRC) as a portion of TRS. The purpose of SRBP-TRS is to provide retirement benefits to employees covered by TRS whose benefits are otherwise limited by IRC Section 415. Beginning July 1, 1997, all members and retired former members in TRS are eligible to participate in the SRBP-TRS whenever their benefits under TRS exceed the IRC Section 415 imposed limitation on benefits.

TRS provides service retirement, disability retirement, and survivor's benefits. The benefit structure of TRS is defined and may be amended by State statute. A member is eligible for normal service retirement after 30 years of creditable service, regardless of age, or after 10 years of service and attainment of age 60. A member is eligible for early retirement after 25 years of creditable service.

Normal retirement (pension) benefits paid to members are equal to 2% of the average of the member's two highest paid consecutive years of service, multiplied by the number of years of creditable service up to 40 years. Early retirement benefits are reduced by the lesser of one-twelfth of 7% for each month the member is below age 60 or by 7% for each year or fraction thereof by which the member has less than 30 years of service. It is also assumed that certain cost-of-living adjustments, based on the Consumer Price Index, will be made in future years. Retirement benefits are payable monthly for life. A member may elect to receive a partial lump-sum distribution in addition to a reduced monthly retirement benefit. Death, disability and spousal benefits are also available.

TIFT COUNTY BOARD OF EDUCATION
 NOTES TO THE BASIC FINANCIAL STATEMENTS
 JUNE 30, 2011

EXHIBIT "H"

Funding Policy. TRS is funded by member and employer contributions as adopted and amended by the Board of Trustees. Members become fully vested after 10 years of service. If a member terminates with less than 10 years of service, no vesting of employer contributions occurs, but the member's contributions may be refunded with interest. Member contributions are limited by State law to not less than 5% or more than 6% of a member's earnable compensation. Member contributions as adopted by the Board of Trustees for the fiscal year ended June 30, 2011, were 5.53% of annual salary. The member contribution rate will increase to 6.00% effective July 1, 2012. Employer contributions required for fiscal year 2011 were 10.28% of annual salary as required by the June 30, 2008, actuarial valuation. Tift County Board of Education

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Ladies and Gentlemen:

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Tift County Board of Education as of and for the year ended June 30, 2011, which collectively comprise Tift County Board of Education's basic financial statements and have issued our report thereon dated March 26, 2012. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

Management of Tift County Board of Education is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered Tift County Board of Education's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Tift County Board of Education's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Tift County Board of Education's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Tift County Board of Education's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we have reported to management of Tift County Board of Education in a separate letter dated March 26, 2012.

This report is intended solely for the information and use of management, members of the Tift County Board of Education, others within the entity, Federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Respectfully submitted,

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE
A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON INTERNAL CONTROL
OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Ladies and Gentlemen:

Compliance

We have audited Tift County Board of Education's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of its major Federal programs for the year ended June 30, 2011. Tift County Board of Education's major Federal programs are identified in the Summary of Auditor's Results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major Federal programs is the responsibility of Tift County Board of Education's management. Our responsibility is to express an opinion on Tift County Board of Education's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major Federal program occurred. An audit includes examining, on a test basis, evidence about the Tift County Board of Education's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on Tift County Board of Education's compliance with those requirements.

In our opinion, the Tift County Board of Education complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major Federal programs for the year ended June 30, 2011.

Internal Control Over Compliance

Management of Tift County Board of Education is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to Federal programs. In planning and performing our audit, we considered Tift County Board of Education's internal control over compliance with the requirements that could have a direct and material effect on a major Federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Tift County Board of Education's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a Federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a Federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be *material weaknesses*, as defined above.

This report is intended solely for the information and use of management, members of the Tift County Board of Education, others within the entity, Federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
