

Message from the Principal of Discovery High School

Dear Students and Parents:

I would like to take a moment and welcome you to Discovery High School for the 2018-19 school year. Discovery's graduating seniors this past school year earned in excess of \$9 million in scholarships. Graduating senior Jalen Johnson received the Morehead-Cain scholarship. Rising senior Ross Dant has been chosen by USA Swimming to represent Team USA at the 2018 Junior Pan Pacific Championships. Discovery is truly a unique place to be, and this coming year should be no different.

Parents and students, we have three major focal points for the coming school year. First of all, we want to focus intently on college-readiness and our students' performance on AP exams as well as more of our students earning college credit through the AP program.

Our second focus this year will be the ACT. Last year, our ACT scores were at an all-time high, but we want to do much better than that. The ACT is an important determinant of college readiness and opportunities for our students. We want to make sure our students do as well as they can on the ACT and have every opportunity to attend a college or university, as well as earn scholarships.

Finally, our third focus is going to be on bettering our communication with our parents. We are going to make communicating the progress of our students a priority this year with frequent progress reports and access to the parent portal in PowerSchool, our student data program.

Each year does offer the promise of a new beginning. We welcome you to Discovery High School.
