College Empowerment Newsletter

June 2018

Issue 3

A message from "Ms. C" Cephas, CESSW/PSA

Hello. I am your LAUSD College Empowerment School Social Worker (CE SSW) with PSA. Our goal is to guide students and parents through the social, emotional and stressful issues related to college admission. I assist with AB 540, being a First Generation college student, financial aid, how to write essays, visiting colleges and advocacy. As a support to the Academic Counselor, students in grades 9-12 will use Naviance college platform to search colleges for a good match. This happens in our state of the art College Center. College readiness activities take place in the classrooms. Individual and group meetings for parents and students occur throughout the 2018-2019 academic year. Tips are given to increase awareness, acceptance and persistence through college graduation. Near high school graduation, our seniors are matched to college campus student support service (mentors, EOP, etc).
