

Dear Parents,

As we work through our school closure, we want to provide you with a list of grade-level appropriate resources for you to access with your child. We have compiled a list of resources, as a reminder, your child will not be returning any of this work to his/her teacher. Nothing on this list is mandatory, rather it is a compilation of activities to keep kids reading, thinking, and thriving.

Grade Level: Kindergarten

Language Arts-Reading

- Choose a grade-level appropriate reader, chapter book, or informational text.
- Read 30 minutes each day. After 30 minutes of reading:
- Discuss, write, or draw about what you read.

Language Arts-Writing

Writing Topics

-Ideas include: books you've read, the weather, your favorite things, your feelings, holidays, life cycles, or even about your day.

Suggested Writing Structures

-Remember to use the correct capitalization, punctuation, spacing, and a complete thought. Challenge yourself by writing multiple sentences.

Math

Practice Math Facts

-Addition and subtraction facts 0-10, counting to 100 by 1s and 10s. Practice printing numbers 0-20.

Word Problems

-Orally or by drawing a picture, tell a math story using addition or subtraction.

PE

- Make sure to warm-up and cool down by stretching.
- Be active every day for 20 minutes. You can run outside, run in place, dance, do

push-ups, sit-ups, jump rope, or anything else that keeps your body moving.
-Keep a list of healthy foods you ate each day.

Social Studies

Examples to choose from:

- Review the calendar daily.
- Discuss, draw, or write about holidays, community helpers, and American symbols.

Science

Examples to choose from:

- Create a habitat for an animal using household products.
- Build a fort.
- Design an amusement park.
- Create a robot with something you have at home.
