

Westy Lunch Visitors

To protect the privacy of all of our students, parents who visit at lunch are NOT permitted to take pictures of ANY children.

Several pictures have been posted on social media WITHOUT the permission of the parents of the other children who are visible in the background.

In our student handbook (that is posted on our website) it states that visitors are NOT permitted to take photographs at lunch (this is a new request this year).

Visiting our students during lunch is a privilege. This privilege will be revoked if our visitors are unwilling to follow the school's request to respect the privacy of the other children in the building.

Please do NOT take pictures of ANY CHILD (even your own child) while visiting in our Cafeteria.

We appreciate your cooperation and understanding.

Our goal is to protect the privacy rights of all families while in the school building.
