Parents and Guardians,

COVID-19 UPDATE: Corinth High School was notified after the close of school on Monday of two additional individuals testing positive for COVID-19. Contact tracing at the school has been completed and anyone in close contact (someone who was within 6 feet of an infected person for 15 minutes or more) with this person has been notified.

If you were notified, your child will need to quarantine for 14 days from the last known contact with the individuals. While quarantining your child may not attend school or any school activities. However, they should continue working digitally in order to be counted present.

This makes five reported positive cases at Corinth High School.

Being one of the first school districts to reopen, the Mississippi State Department of Health and the Centers for Disease Control are in close and frequent contact with us to help ensure that we are creating as safe a learning environment as possible.
