

What is a Technology Campus?

Students will navigate the curriculum using technology to explore, create and produce solutions to real-world problems in order to prepare them for high-demand jobs of the future.

Mission Statement

Sheldon ISD will provide personalized learning opportunities to ensure all students graduate college and career ready.

How to Apply

Any kindergarten student who lives in Sheldon ISD may apply to any Compass Schools program (please keep in mind that transportation to and from school will not be provided by the district).

Sheldon ISD will provide a fair and open process for enrolling in a Compass Schools program. Timelines will be published annually.

To apply for enrollment in a Compass Schools program, complete and submit an online application no later than April 5, 2019 by visiting www.sheldonisd.com/compass/.

Families will be notified of placement in May. Enrollment is for one full year.

Our Commitments

All Compass Schools will....

- Share the same underlying curriculum.
- Provide opportunities and resources for all learners to facilitate student success.
- Prepare all students to be college and career ready.
 - Use project-based learning to develop leadership skills that will prepare them for the future workplace.
- Commit to building parent partnerships and providing volunteer engagement opportunities.

Technology

Is your child fascinated with technology? Do they like to use technology to learn or create? Are they interested in coding or computer science? Do they enjoy problem solving or using technology to help others?

Technology in our world is fast paced and rapidly changing. Our technology campuses will help your child develop analytical and technical skills – including exploring the use of technology in many of today's applications – that will translate into future career pathways.
