**SPARK** is a part of a 21st Century Learning grant that was awarded to the district to serve 5 elementary schools for students in grades 2nd-5th. The program can serve a max. of 50 students per site. Federal funds provide enrichment opportunities in literacy and STEM. Students must attend at least 12 hours per week. Transportation is provided for this program based on grant funding.

**SCS Enrichment Care Program** is for the purpose of student safety, where a parent may have a hardship and would otherwise be required to leave the child at home for a short period for work to accommodate for the new staggered bell schedule. Transportation is **not** provided for this program.
