Ms. Hinds
Instructional Coach

Mr. Jennings
Assistant Principal

Mrs. Sharpe
Academic Counselor

Ms. Zimmermann
Director of CTE
Presentation Overview

- This slideshow will cover the following topics:
  - **Teacher/Student Remote Learning Platform**
    - Canvas
    - Academic Schedule (a template)
  - **Student grades**
    - Accessing Powerschool
    - Grade Categories/Weights
  - **IDEA’s Career Technical Education (CTE) Department**
    - Programs, Work-based Learning, Courses, Dual Enrollment
Virtual Learning @ IDEA using Canvas

● Students will interact with teachers and facilitate their learning using Canvas. Canvas is a Learning Management Tool that will be our platform for remote learning during Quarter 1 at IDEA Public Charter School.

● **How will students access Canvas?**
  ○ Using the following URL ideapcs.instructure.com, students will use their IDEA issued gmail address and password to login.
  ○ Once logged in, students will see their assigned course.
    ■ Students will also be assigned the **Passport to Canvas** Course, which will walk them through how to navigate through using Canvas.

● **What are the benefits of Canvas?**
  ○ Canvas will be a “one-stop shop” for learning. All student assignments will be completed on Canvas and grades are synced with Powerschool.

Career & Technical Education (CTE)

- IDEA offers four CTE programs
  - Construction Technology
  - Computer Science
  - Child Development
  - Business Management *(new!)*
- These hands-on programs offer your scholar the opportunity to learn real-world skills and earn industry-recognized certifications
- No matter your scholar’s plans after IDEA, these programs help to reinforce academic concepts while also learning technical skills that you can use for the rest of your life!
- Each program includes an internship, industry mentorship and fun projects.
So what will CTE look like during virtual learning?

- We are adapting!
- Each of our programs will continue to be offered during virtual learning.
- Your scholar will engage in:
  - construction simulations and help plan a school-based construction business
  - shadow early childhood classrooms on Zoom and engage in home-based projects
  - Learning three coding languages -- Swift, Python, and Unity
  - Build their own business plan and help build IDEA's student-run businesses
Dual Enrollment: Getting a Jumpstart on Your College Career

New this year!

- IDEA has forged two new partnerships with Trinity Washington University and Bard College
- We are continuing our partnership with University of DC-Community College
- Scholars must meet certain academic eligibility requirements in order to participate
