Update of Social Media Threat

TISD Family Members

Dear TISD Parents and Families,

This is an update on the Social Media Threat Received by Trinity ISD on November 18, 2019:

As you may be aware, a student posted a social media threat to TISD indicating a possible riot on our campuses on Friday, November 22, 2019. All local law enforcement agencies have been notified and the student has been placed in the custody of the Trinity ISD police department and has been charged with multiple offenses. Trinity ISD takes all threats seriously and will prosecute any threat to the fullest extent. At no time was any student or staff member in Trinity ISD in danger.

The district will continue to monitor this situation and take any necessary steps to ensure our student safety. As a precaution we will have heightened security on both campuses for the remainder of the week.

Thank you for your cooperation and if you have questions please feel free to call your child’s principal.

Respectfully,

John Kaufman
Superintendent,
Trinity ISD
