

JUNE 2019

COMPUTER GAME DESIGN SUMMER CAMP

Learn how to create games in Unity without any programming experience! Open to student entering grades 7 through 10 in the 2019-2020 school year. Students learn to create games, find resources, and find tutorials to help them once they have completed the course. Students will receive a crash course in programming with C#.

Questions: Call 801-256-5916

Week-long introduction to coding.
Have fun while learning to create games!
