

SCHOOL-BASED PROGRAM COORDINATION

In order to best serve students with special needs, as well as students participating in designated educational programs, the Board of Education encourages school-based program coordination as a means for achieving flexibility in the use of the categorical funds received by each school. The Board believes that resources acquired to assist students in one program often can benefit other students without in any way depriving the originally targeted group.

A school-site council shall be established at each school to consider whether or not it wishes the school to participate in school-based program coordination. All interested persons shall have an opportunity to meet in public to establish the site council. (Education Code 52852.5)

(cf. 0420 - School Plans/Site Councils)
(cf. 1220 - Citizen Advisory Committees)

Evaluation of each participating school's educational program shall include an assessment of the school's effectiveness in meeting the needs of each student population targeted by categorical funds.

(cf. 0500 - Accountability)
(cf. 3553 - Free and Reduced Price Meals)
(cf. 6190 - Evaluation of the Instructional Program)

Citizen Advisory Council for Compensatory Education

The Board believes that parents should be involved with the staff in the planning, implementation, and evaluation of all compensatory education programs. Thus, required compensatory education advisory councils and/or consultation procedures shall be implemented for all compensatory education.

The Superintendent or designee is directed to form a District Advisory and Information Council (DAIC). The DAIC shall be composed of a majority of parents who reside in the District. Representative parents shall be elected by parents of students participating in State Compensatory Education (SCE) programs. The remainder of the DAIC shall be composed of the District professional staff.

The Superintendent or designee is also directed to form an advisory committee at each of the schools where there are State Compensatory Education Programs. A majority of the members of the committees shall be elected by parents of students participating in SCE programs. The remainder of the committees shall be composed of the professional staff.

The committee may elect to serve as its representative body for two years.
