1. Go to the **Settings** app.
2. Choose **Screen Time**.
3. Tap **“Use Screen Time Passcode”** and set a passcode that your child doesn’t know.
4. There are 4 areas you can set restrictions:
   a. **Downtime** – set a specific time frame when you want the iPad blocked from being used. You can customize the times on each day of the week.
   b. **App Limits** – add apps to the list and set a time limit for each
   c. **Always Allowed** – choose apps that are always accessible even during downtime
   d. **Content & Privacy Restrictions** – make sure to leave Location Services on, so iPad can be tracked if lost
