Modifications since 2017 to the Advanced Placement qualifying process

Overview: A qualifying test will be waived for students who have already demonstrated a high level of competence (“A”) in the skills required for particular AP courses. These students will be accepted into the AP course provided they have met all other requirements for the course; for example, involving the application, final grades and summer assignments. The hope is that these modifications reduce the amount of work and anxiety for students after Midterm Exams as a new semester unfolds.
