5 WAYS TO JUMP-START YOUR COLLEGE ESSAY

1. Make a list of all the essays you have to write
2. See if you can use an essay for more than one school
3. Punch through writer's block:
   - Think about the essay while you're doing something else
   - Instead of sentences, write details and moments you remember.
   - Talk it out before you write.
4. You don't have to have a unique topic - just write about YOU.
5. Ask for help. From a teacher, guidance counselor, or professional.
