

Dear Families,

Time flies when you're having fun! Today during our Apex visit we got our 5th step in becoming STRONG leaders – **Next Level**. This isn't an everyday concept for students at this age. Simply put, the Apex Team described **Next Level** as changing levels in an elevator. There are going to be times when students want to do the bare minimum just to get things done. Taking things to the **Next Level** means going above and going beyond and not settling for average!

***Tonight's challenge: Any student that gets a \$50 or more donation will be able to join the Apex Team at the Water Balloon Bash!***

***Congratulations to last night's winners!***

Thanks.
