Western Sierra Collegiate Academy  
2018-19 Traffic Pattern Information – updated September 2018

Dear Parents and Students,

It is important to be safe when dropping off or picking up students. Our drop-off/pick-up plan has been created in consultation with the Rocklin Police Department and outside consultants specializing in risk management. We strongly recommend that you allow extra time for dropping off and picking up. There is only one entrance/exit for the school parking lot, so it takes everyone’s patience and adhering to traffic laws.

**Morning drop-off procedures**

1. Turn onto Menlo Drive and turn right into the school.
2. Pull all the way forward to the front of the single line to keep traffic flowing.
3. Once the car has stopped, exit to the passenger side of the car quickly and safely.
4. Turn **right** out of the driveway and use the cul-de-sac.
5. U-turns on Atherton and Menlo are dangerous to students and drivers and considered traffic violations.

**Afternoon pick-up procedures**

1. Arriving too early will back up traffic and double parking or parking on the red curb is a traffic violation.
2. Impeding traffic flow at the stop sign is a traffic violation.
3. Consider parking in the back lot on campus for an effective meeting place.
4. On campus, pull all the way forward to the front of the line to keep traffic flowing.
5. Off campus, park along Atherton next to empty field or PCOE property without blocking driveway. Crossing the unmarked street is a safety hazard for students and drivers.
6. U-turns on Atherton and Menlo are dangerous to students and drivers and considered traffic violations if there is oncoming traffic.
7. Plan visitor parking so as not to back out into traffic flow.

**General Reminders:**

1. Have students use the sidewalk around the cul-de-sac,
2. Students riding bikes or skateboards must walk their bike or skateboard while on campus.
3. Be courteous to our volunteers who faithfully help with traffic and look out for student safety.
4. Set a positive example for our students and be careful not to be distracted with phones and pets.
5. Take advantage of the many parking spots available on campus in the back.

**Please:**

1. Be patient in line and keep traffic flowing.
2. Respect our neighboring businesses by staying off their property and not blocking entrances.
3. Use designated areas and pull forward if extra time is needed for drop off or pick up.
4. Stay in your car unless you are in a parking spot on campus.
5. Leave handicapped parking spots accessible for those who need them.

*Thank you for working together to keep our students safe!*
