Dear:

This is to confirm that we have received your letter notifying us that you will be home schooling your child (ren) for the 2018-19 school year.

On the reverse side of this letter you will find home school information. The number at the end of each of the seven categories is a reference to a particular section of Colorado School Law concerning home schooling.

We hope this information will help you to meet all the criteria for home schooling your child/children. If you have questions you may contact Leslie Arnold, Superintendent of Schools, at 587-6059.

Parents who home school their high school aged children, need to know that in many cases credit may not be transferred to Roosevelt High School for graduation. If you want your child to graduate from Roosevelt High School, he or she needs to meet all of our district's graduation requirements. Any home school credit accepted by the high school must be approved by the school. In most cases this should be done in advance of the course work being completed.

If you plan to move your child back into Roosevelt High School from home schooling, you should arrange to meet with a counselor from that school to discuss your plan and then have the plan approved by the principal. You may also be asked to provide documentation concerning the amount of instruction time provided to the student, the content of the curriculum used for each class, and documentation that the student has completed assignments and testing for the course, in order to determine if credit should be granted.

Our best wishes to you and your family.

Sincerely,

Leslie Arnold
Superintendent of Schools
