

**Is your child creative? Is your child an artist?
Join us to learn more about what BCS Visual Arts Program can offer your child!**

Parents and students Support Group for **Visual Art** in Bartlett City Schools!

**First meeting - Wednesday, October 3rd at 6pm
Bartlett High School Cafeteria**

Creativity is topping the charts as a 21st century skill. BCS Art teachers have redesigned our Pre-K - 12th grade art program to empower your child to be ready for whatever creative pursuit they can imagine! A recent IBM study conducted amongst 1,500 chief executive officers worldwide identified creativity as the *most important leadership quality of the future*. Many of these CEOs were from Fortune 500 companies like Pepsi, BF Goodrich, Ford Motor Company, Disney, Time Warner, and K-Mart - all of whom employ a "Chief Creativity Officer" as part of their executive staff.

You and your family are invited to attend a meeting to learn more about BCS's Visual Art program, to meet our art teachers, to learn what we offer to students, and discover ways you can help. Like all other fine arts and sports teams, we need the community's support! Please join us for our first meeting on **Wednesday, October 3rd at 6pm in the Bartlett High School Cafeteria** to learn how the creativity developed in art class can lead to a successful career for your child. We will discuss our yearly K-12 art exhibit, learn about college scholarships available in the Visual Arts, and ask for your thoughts about expanding our program, and much more!
