

December Science Preview

in the STEAM Lab with
WonderGround Science!

Preschool
Science Art

Families:

Ask your kids how to make colors bubble and fizz.

Transitional Kindergarten
Fix-It Stations

Families:

Ask your kids how engineers put things together.

Kindergarten
Rain versus snow

Families:

Ask your kids why we get more rain than snow here.

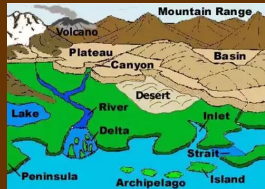

First Grade
Animal Genetics

Families:

Ask your kids to draw the imaginary offspring of 2 fantastic beasts: an owl plus an octopus.

Second Grade
Landforms
(salt dough creations)

Families:

Ask your kids how land is formed into canyons and mountains.

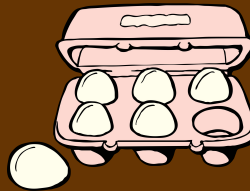

Third Grade
States of Matter

Families:

Ask your kids to tell you the forgotten state of matter.

Fourth Grade
Eggs-periments

Families:

Ask your kids which is stronger: a dome or a square?

Fifth Grade
Clouds

Families:

Ask your kids to describe the clouds that indicate the harshest weather.
