July 20, 2020

Dear ASOY community,

I hope you are all doing well and are staying healthy. As we work towards reopening the school on August 31st, the health and safety of our students, staff and families are our foremost priority. The school administration has been working on a plan over the summer weeks and we would like to share this information with you. Attached are two pamphlets for the elementary and secondary students with some key points to keep in mind as we prepare for a return to school.

We currently have a plan in place for a hybrid of online learning and face to face teaching to start the school year. For families that arrive after the 31st of August, the students will be able to follow the instruction online. To ensure health and safety we will institute a number of procedures:

- Staggered arrival and departure times
- Different entry and exit points for age groups
- Temperature checks upon entry and mandatory wearing of masks
- Stringent cleaning procedures
- Hand sanitizer and washing stations located around the school
- Social distancing in classrooms according to European CDC and WHO guidelines

We continue to monitor developments both nationally and internationally and are ready to adapt our response accordingly. This includes moving the teaching and learning to a fully digital platform should the situation warrant this.

Kind regards,

The ASOY Administration

*Please note that at this time, ASOY will not be providing canteen or bus service.*
