I. **Strategic Planning Exercise Participant Meeting 1**

4:00 pm start time.

The meeting was facilitated by Chris Kenny and Bill Moye.

Participants first broke into their respective constituent groups and identified their top 3 successes and challenges for CCPS in the last 3 years.

Next, participants reviewed and discussed the CCPS Mission and Values, along with the 5 pillars of the 2020 CCPS Strategic Plan: Teaching and Learning; Inter- and Intra-Constituent Relationships; School Community and Culture; Growth and Sustainability; and Financial Stewardship.

Participants were then separated to ensure members of all constituent groups were present in two different teams: One focused on identifying CCPS’s most likely future if nothing is changed in the next 10 years, and one focused on describing CCPS’s most desirable future in the next 10 years.

An excellent discussion followed as a result of this exercise, with all participants agreeing on a draft Most Desirable Future statement of: “In 2030, CCPS is an internationally-minded IB charter school supported by strong leadership teams, a fully expansive facility, and strong financial health. Our inclusive school expands the capabilities of our students through our unique and adaptive academic programs. We foster productive future leaders in our society for every career path by supporting and embodying the IB learner profiles. Our culture and climate are positive and trusting.”

Meeting 2 of the Strategic Planning Exercise will take place at CCPS on February 28th from 2-6 p.m.
