Dear Aristoi Parents -

C.S. Lewis said, *"Reality is not neat, not obvious, not what you expect."* His words certainly ring true for the times in which we find ourselves.

As we journey on this new path of connecting with our students, parents, faculty, and staff, the Guidance Counseling Office wants you to know that we are available to you. We are working on creating a virtual guidance office through the same Google Classroom model that our teachers are using.

As a way to connect with you and your children, I have attached several videos for your consideration in talking with your children about the virus.

[How to Talk to Kids About the Coronavirus](#)  
[Answering Kids' Questions About Coronavirus](#)  
[5 Facts Every Kid Should Know About the Coronavirus](#)

Additionally, there is further information at the Center For Disease Control:  
[Talking with Children about Coronavirus Disease](#)

Please stay well, and [feel free to contact us with any questions or concerns.](#)

Sincerely,  
Lynn Cummins, MS  
Counselor/Guidance Counselor
