Pricing adjustments

From time to time during the term of this agreement, the pricing for dairy products will be subject to adjustment based on changes in Meadow Gold's costs as follows.

- (A) Meadow Gold shall make adjustments for the next succeeding month equal to the amount of the increase or decrease in Meadow Gold's Raw Milk Costs.
- (B) Meadow Gold shall make adjustments equal to the amount of the increase or decrease in Meadow Gold's costs for ingredients, concentrate and packaging (other than Raw Milk Costs) at such time as changes in these costs occur. Adjustments shall be made equal to the change in cost of distribution.
Raw Milk Cost is the net cost paid by Meadow Gold for raw milk purchased from a raw milk co-op or producer. This cost consists of the Federal Order minimum raw milk price for the relevant period, plus premiums and assessments charged by the co-op or producer and regulatory agencies. It also reflects the effect of the butterfat differential announced by USDA. Within (12) days after the date Meadow Gold receives notice from Meadow Gold's supplier(s) of any such change in Meadow Gold's cost giving rise to a price adjustment, Meadow Gold will notify the school's representative of such change and the anticipated adjustment to be made in prices for the dairy products. Any such change in the price of the dairy products shall take effect on the first day of the succeeding month.

2019 - 2020 BID PRICES ARE BASED ON June 2019 USDA FEDERAL MILK ORDER 124 - Class I - \$19.17

In submitting this bid, the undersigned hereby certifies that said bid has not been made or prepared in collusion with any other processor of dairy products and that the prices, term or conditions applicable to the sale thereof have not been communicated by or on behalf of the bidder to any other dairy processor or person prior to the official opening of said bid.

Thank-you for considering Meadow Gold Dairy.

Sincerely,
