## **Welcome to Whitebead School “Where The Future Begins”**

**Dear Parent or Guardian,**

The faculty and staff of Whitebead School are committed to ensuring that every student is safe, challenged and ready for their future. Our primary goal is to ensure that all students learn to read fluently at or above grade level and are able to make the connection between reading and writing as they express their thoughts through writing. We strive to ensure that our students are proficient in mathematical computation and problem solving. We are committed to maintaining a culture of “continuous improvement” that enables our students to reach academic goals in a school setting that is safe, secure, and conducive to social/emotional growth.

We are pleased to welcome your family into our school and ask that you join us in the commitment to do whatever it takes to ensure that each student is successful at school. You can help by making sure that your child is:

- Rested and ready to learn
- Present - not absent
- On time (school begins at 8:00)
- Prepared - (has homework, necessary supplies, lunch plans, etc)

The best way for us to ensure that goals are being met (yours and ours) is to maintain an open line of communication. It’s important for your child to see that we are on the same team. Please do not hesitate to ask questions, make suggestions, or express concerns.

Visit our Facebook at “Whitebead School District” for up-to-date information on happenings at Whitebead School. You may reach the school office at 405-238-3021 or contact any teacher via email.

# **We need you to be a part of our best year yet!**

## WHITEBEAD SCHOOL HANDBOOK

### **Arrival at School**

Students should not be dropped off before 7:30 a.m.

The building will open at 7:30 a.m. with all students reporting to the cafeteria for breakfast or to the auditorium.

8:05 a.m. Students dismissed from the auditorium to classrooms. Each school day begins with a *Pledge of Allegiance*, *Moment of Silence* and other announcements as appropriate.

Students arriving after 8:05 must go to the office for a tardy slip before being admitted to class. .

All students should be dropped off at the South entrance. STUDENTS SHOULD NOT BE DROPPED OFF EARLY AS THE DISTRICT WILL NOT BE RESPONSIBLE FOR ACCIDENTS AND INJURIES OCCURRING WHEN CHILDREN ARE LEFT UNATTENDED BEFORE 7:30 AM. AND/OR AFTER 3:00 PM. Students are NOT permitted inside the building until supervision is provided after 7:30 a.m.

### **Check-in Procedures**

All students arriving after 8:05 a.m. must be checked in at the office by a parent or another adult. Habitual tardiness is an impediment to student success and is disruptive to the learning environment. Class begins promptly at 8:00 a.m. Any student arriving to class after the 8:05 will be counted tardy. Three (3) unexcused tardies within a nine week period will be considered the same as one (1) day of unexcused absence. As tardies accrue, notification will be handled through the processes outlined in the attendance policy.

### **Check-out Procedures**

Students leaving school early for any reason must be checked out through the office by a parent or guardian. Please note that an “early dismissal” is the equivalent of a tardy. Three early dismissals will equal one absence. The school day ends at 3:00. Departure before this time negatively impacts classroom routines.

All students leaving the building during the regular school day must be checked out in the front office. Valid identification may be required to sign students out. For the safety of our children, only persons listed in the student information system will be allowed to check them out.

### **Dismissal**

General Dismissal will be at 3:00 p.m. each afternoon. This will include those picked up by parents or daycare providers. It is strongly recommended that parents and guardians remain in the vehicle, following the flow of traffic and allow school staff to load all students.

The safety of all is our primary concern during student pick up. Note that there are crossing guards on duty at the street level and in the driveway – making it possible for all parents to remain in their vehicle.

## **POLICIES AND REGULATIONS OF WHITEBEAD SCHOOL**

### **FERPA - Notice of Rights (Under the Family Education Rights and Privacy Act of 1974)**

The Family Educational rights and Privacy Act (FERPA) affords parents and students over 18 years of age “eligible students” certain rights with respect to the student’s education records. They are:

(1) The right to inspect and review the student’s education records within 45 days of the day the District receives a request for access.

Parents or eligible students should submit to the school principal (or appropriate school official) a written request that identifies the record(s) they wish to inspect. The principal will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.

(2) The right to request the amendment of the student’s education records that the parent or eligible student believes are inaccurate or misleading.

Parents or eligible students may ask the District to amend a record that they believe is inaccurate or misleading. They should write the school principal, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading.

If the District decides not to amend the record as requested by the parent or eligible student, the District will notify the parent or eligible student of the decision and advise them of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.

(3) The right to consent to disclosures of personally identifiable information contained in the student’s education records except to the extent that FERPA authorizes disclosure without consent.

One exception which permits disclosure without consent is disclosure to school officials with legitimate educational interests. A school official is a person employed by the District as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the School Board; a person or company with whom the District has contracted to perform a special task (such as an attorney, auditor, medical consultant, or therapist); or a parent or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

Upon request, the District discloses education records without consent to officials of another school district in which a student seeks or intends to enroll.

(4) The right to file a complaint with the U.S. Department of Education concerning alleged failures by the District to comply with the requirements of FERPA. The name and address of the office that administers FERPA is:

Family Policy Compliance Office  
U.S. Department of Education  
600 Independence Avenue, S.W.  
Washington, D.C. 20202-4605

## **Notice for Directory Information**

### **(Family Educational Rights and Privacy Act- FERPA & Every Student Succeeds Act 2015)**

The *Family Educational Rights and Privacy Act* (FERPA), a Federal law, requires that Whitebead School, with certain exceptions, obtain your written consent prior to the disclosure of personally identifiable information from your child's education records. **However Whitebead School may disclose appropriately designated "directory information" without written consent, unless you have advised the District to the contrary in accordance with District procedures.** The primary purpose of directory information is to allow Whitebead School to include this type of information from your child's education records in certain school publications. Examples include:

- A playbill, showing your student's role in a drama production;
- The annual yearbook;
- Honor roll or other recognition lists;
- Graduation programs; and
- Sports activity sheets, such as for wrestling, showing weight and height of team members.

Directory information, which is information that is generally not considered harmful or an invasion of privacy if released, can also be disclosed to outside organizations without a parent's prior written consent. Outside organizations include, but are not limited to, companies that manufacture class rings or publish yearbooks. In addition, two federal laws require local educational agencies (LEAs) receiving assistance under the *Elementary and Secondary Education Act of 1965* (ESEA) to provide military recruiters, upon request, with three directory information categories - names, addresses and telephone listings – **unless parents have advised the LEA that they do not want their student's information disclosed without their prior written consent.**<sup>1</sup>

If you do not want Whitebead School to disclose directory information from your child's education records without your prior written consent, you must annually notify the District in writing by September 1 or within two (2) weeks of enrollment if the student is enrolled after September 1. Whitebead School has designated the following information as directory information:

The student's name;

The student's class designation (i.e., first grade, tenth grade, etc.);

The student's extracurricular participation;

The student's achievement awards or honors;

The student's weight and height if a member of an athletic team;

The student's photograph.

<sup>1</sup>These laws are: Section 9528 of the ESEA (20 U.S.C. 7908), as amended by the *Every Student Succeeds Act of 2015* (P.L. 107-110), the education bill, and 10 U.S.C. 503, as amended by section 544, the *National Defense Authorization Act for Fiscal Year 2002* (P.L.107-107), the legislation that provides funding for the Nation's armed forces

***The school district has created a limited directory information policy and will not fulfill directory information requests for commercial purposes or for marketing purposes.***

Where there is a judgment to be made, the site principal will make the decision. Action - Student may be sent home to change before returning to school. Students not in compliance will be subject to further disciplinary action from school officials.

### **Student Discipline Philosophy**

Whitebead School Board of Education believes that the school's primary goal is to educate, not to discipline. However, education includes establishing norms of social behavior and assisting students in understanding and attaining those norms. The teacher in a public school has the same rights as a parent or guardian to control and discipline a child when the child is in attendance, in transit to or from the school, or participating in any authorized school function. Further, it is the policy of the district that students may be disciplined for any misconduct related to the programs or activities of the District. Disciplinary matters concerning children of school employees will be handled by the appropriate Principal or the Superintendent or the Superintendent's designee. Each student shall be treated in a fair and equitable manner. Disciplinary action will be based on a careful assessment of the circumstances surrounding each infraction. The following are some examples of

these circumstances: The seriousness of the offense; The effect of the offense on other students; Whether the offense is physically or mentally injurious to other people; Whether the incident is isolated or habitual behavior; The manifestation of a disability; and Any other circumstances which may be appropriately considered. Standards of behavior for all members of society are generally a matter of common sense. When, in the judgment of a teacher or administrator, a student is involved or has been involved in unacceptable behavior, appropriate remedial or corrective action will be taken.

In administering discipline, consideration will be given to alternative methods of punishment to insure that the most effective discipline is administered in each case. In all disciplinary actions, teachers and administrators will be mindful of the fact that they are dealing with individual personalities. The faculty may consider consultation with parents/guardians to determine the most effective disciplinary measure. In considering alternatives of corrective actions, the faculty/administration of the school district will consider those listed below. However, the school is not limited to these alternative methods, nor does this list reflect an order or sequence of events to follow in disciplinary actions. The Board of Education will rely upon the judgment and discretion of the administrator to determine the appropriate remedial or corrective action in each instance.

1. Conference with student
2. Conference with parent/guardian
3. In-school Suspension
4. Detention
5. Referral to counselor
6. Behavioral contract
7. Changing student's seat assignment, class assignment
8. Requiring a student to make financial restitution for damaged property
9. Requiring a student to clean or straighten items or facilities damaged by the student's behavior
10. Restriction of privileges
11. Involvement of local authorities
12. Referring student to appropriate social agency
13. Suspension
14. Revocation of or change to bus riding privilege
15. Other appropriate disciplinary action as required and as indicated by the circumstances which may include, but is not limited to, removal from eligibility to participate or attend extracurricular activities as well as removal from the privilege of attending or participating in the graduation ceremony, school dances, cheer, and /or class trips.

The Student Expectations Policies, Procedures, & Safety Guidelines are presented to each student at the beginning of each school year and to new students upon enrollment. In addition, the Student Expectations Policies, Procedures, and Safety Guidelines Handbook is available to review or download on each site's home webpage and on the district's home page under the Parent tab.

Parents/guardians and students residing in this school district are also advised by means of this policy statement and by the student handbook that students in this district shall have no **reasonable** expectation of privacy rights towards school officials, in school lockers, desks, or other

school property. School personnel shall have access to school lockers, desks, and other school property at any time. Student property may be searched with reasonable suspicion. It is important to note that in many instances a range of possible administrative actions may be taken in response to discipline concerns. It shall be the site administrator's responsibility to determine the appropriate sequence of actions, with every effort made to be fair and equitable. Individual circumstances and student needs shall be considered in such decisions.

In addition, exceptions will be made for a gun, knife, bayonet or other weapon in the possession of a member of a veterans group, the national guard, active military, the Reserve Officers' Training Corp (ROTC) or Junior ROTC, in order to participate in a ceremony, assembly or educational program approved by the principal or chief administrator of a school district where the ceremony, assembly or educational program is being held; provided, however, that the gun or other weapon that uses projectiles is not loaded and is inoperable at all times while on school property.

***THIS POLICY REQUIRED BY LAW***

## **Bullying Policies**

### **PROHIBITING HARASSMENT, INTIMIDATION AND BULLYING**

***(INVESTIGATION PROCEDURES)***

The following procedures will be used by any person for the filing, processing, and resolution of a reported incident of harassment, intimidation, bullying, or threatening behavior. The procedures are to be followed by the administration of the school district in an effort to determine the severity of the incident and the potential to result in future violence.

### ***Definitions***

1. "Bullying" means any pattern of harassment, intimidation, threatening behavior, physical acts, verbal or electronic communication directed toward a student or group of students that results in or is reasonably perceived as being done with the intent to cause negative educational or physical results for the targeted individual or group and is communicated in such a way as to disrupt or interfere with the school's educational mission or the education of any student.

"Electronic communication" means the communication of any written, verbal, or pictorial information or video content by means of an electronic device, including, but not limited to, a telephone, a mobile or cellular telephone or other wireless communication device, or a computer.

"Threatening behavior" means any pattern of behavior or isolated action, whether or not it is directed at another person, that a reasonable person would believe indicates potential for future harm to students, school personnel, or school property.

### ***Procedures***

The procedure for investigating reported incidents of harassment, intimidation, and bullying or threatening behavior, is as follows:

1. The matter should immediately be reported to the building principal. If the bullying involved an electronic communication, a printed copy of the communication as well as any identifying information such as email address or web address shall be provided to the building principal. As much detailed information as possible should be provided to the building principal in written form to allow for a thorough investigation of the matter.
2. Upon receipt of a written report, the building principal shall contact the superintendent and begin an investigation to determine the severity of the incident and the potential for future violence.
3. If, during the course of the investigation, it appears that a crime may have been committed the building principal and/or superintendent shall notify local law enforcement and request that the alleged victim also contact law enforcement to report the matter for potential criminal investigation. Building principal and/or superintendent, based on severity and need, may refer perpetrator to the Office of Juvenile Affairs, which will consider appropriate prevention and intervention programs.
4. If it is determined that the school district's discipline code has been violated, the building principal shall follow district policies regarding the discipline of the student. The building principal shall make a determination as to whether the conduct is actually occurring.
5. Upon completion of the investigation, the principal or superintendent may recommend that available community mental health care, substance abuse or other counseling options be provided to the student, if appropriate. This may include information about the types of support services available to the student bully, victim, and any other students affected by the prohibited behavior. If such a recommendation is made, the

administration shall request disclosure of any information that indicates an explicit threat to the safety of students or school personnel provided the disclosure of information does not violate the provisions or requirements of the Family Educational Rights and Privacy Act of 1974, the Health Insurance Portability and Accountability Act of 1996, Section 2503 of Title 12 of the Oklahoma Statutes, Section 1376 of Title 59 of Oklahoma Statutes, or any other state or federal laws relating to the disclosure of confidential information.

6. Upon completion of an investigation, timely notification shall be provided to the parents or guardians of a victim of documented and verified bullying. This information should be provided within 7 days of the conclusion of the investigation.

7. Upon completion of an investigation, timely notification shall be provided to the parents of the perpetrator of the documented and verified bullying. This information should be provided within 7 days of the conclusion of the investigation.

Reports may be made anonymously. However, no formal disciplinary action shall be taken solely on the basis of an anonymous report. Reports shall be made immediately to the building principal by any school employee that has reliable information that would lead a reasonable person to suspect that a person is a target of bullying.

The Superintendent shall be responsible for enforcing this policy. The building principal should notify the superintendent within twenty-four (24) hours of any report of bullying. Upon completion of an investigation, the building principal should notify the superintendent of the findings of the investigation. Documentation should also be provided to the superintendent to establish that timely notification was provided to the parents of the victim and the parents of the perpetrator.

## **PROHIBITING HARASSMENT, INTIMIDATION AND BULLYING**

### *(REGULATION)*

The Whitebead School student conduct code prohibits bullying. This regulation further explains the negative effects of that behavior and seeks to promote strategies for prevention.

### ***Statement of Board Purpose in Adopting Policy***

The board of education recognizes that bullying of students causes serious educational and personal problems, both for the student-victim and the initiator of the bullying. The board observes that this conduct:

1. Has been shown by national and state studies to have a substantial adverse effect upon school district operations, the safety of students and faculty, and the educational system at large.
2. Substantially disrupts school operations by interfering with the district's mission to instruct students in an atmosphere free from fear, is disruptive of school efforts to encourage students to remain in school until graduation, and is just as disruptive of the district's efforts to prepare students for productive lives in the community as they become adults.
3. Substantially disrupts healthy student behavior and thereby academic achievement. Research indicates that healthy student behavior results in increased student academic achievement. Improvement in student

behavior through the prevention or minimization of intimidation, harassment, and bullying towards student-victims simultaneously supports the district's primary and substantial interest in operating schools that foster and promote academic achievement.

4. Substantially interferes with school compliance with federal law that seeks to maximize the mainstreaming of students with disabilities and hinders compliance with Individual Educational Programs containing objectives to increase the socialization of students with disabilities. Targets of bullying are often students with known physical or mental disabilities who, as a result, are perceived by bullies as easy targets for bullying actions.

5. Substantially interferes with the district's mission to advance the social skills and social and emotional well-being of students. Targets of intimidation, harassment, and bullying are often "passive-target" students who already are lacking in social skills because they tend to be extremely sensitive, shy, display insecurity, anxiety and/or distress; may have experienced a traumatic event; may try to use gifts, toys, money, or class assignments or performance bribes to protect themselves from intimidation, harassment, or bullying; are often small for their age and feel vulnerable to bullying acts; and/or may resort to carrying weapons to school for self-protection. Passive-target victims who have been harassed and demeaned by the behavior of bullies often respond by striving to obtain power over others by becoming bullies themselves, and are specifically prone to develop into students who eventually inflict serious physical harm on other students, or, in an effort to gain power over their life or situation, commit suicide.

6. Substantially disrupts school operations by increasing violent acts committed against fellow students. Violence, in this context, is frequently accompanied by criminal acts.

7. Substantially disrupts school operations by interfering with the reasonable expectations of other students that they can feel secure at school and not be subjected to frightening acts or be the victim of mistreatment resulting from bullying behavior.

Bullying often involves expressive gestures, speech, physical acts that are sexually suggestive, lewd, vulgar, profane, or offensive to the education or social mission of this school district, and at times involves the commission of criminal acts. This behavior interferes with the curriculum by disrupting the presentation of instruction and also disrupts and interferes with the student-victim's or bystander's ability to concentrate, retain instruction, and study or to operate free from the effects of bullying. This results in a reluctance or resistance to attend school.

### ***Definition of Terms***

#### **1. Statutory definition of harassment, intimidation, and bullying:**

70 O.S. §24-100.3(c) of the School Safety and Bullying Prevention Act defines the terms "bullying," as including, but not limited to a pattern of harassment, intimidation, threatening behavior, physical acts, verbal or electronic communication, directed toward a student or group of students that results in or is reasonably perceived as being done with the intent to cause negative educational or physical results for the targeted individual or group and is communicated in such a way as to disrupt or interfere with the school's educational mission or the education of any student that a reasonable person should recognize will:

A. Harm another student;

B. Damage another student's property;

C. Place another student in reasonable fear of harm to the student's person or damage to the student's property; or

D. Insult or demean any student or group of students in such a way as to disrupt or interfere with the school's educational mission or the education of any student.

## **2. The "Reasonable Person" Standard**

In determining what a "reasonable person" should recognize as an act placing a student in "reasonable" fear of harm, staff will determine "reasonableness" not only from the point of view of a mature adult, but also from the point of view of an immature child of the age of the intended victim along with, but not limited to, consideration of special emotional, physical, or mental needs of the particular child; personality or physical characteristics, or history that might cause the child to be particularly sensitive to efforts by a bully to humiliate, embarrass, or lower the self-esteem of the victim; and the discipline history, personality of, and physical characteristics of the individual alleged to have engaged in the prohibited behavior.

## **3. General Display of Bullying Acts**

Bullying, for purposes of this section of the regulation, includes harassment and intimidation, and vice versa. According to experts in the field, bullying in general is the exploitation of a less powerful person by an individual taking unfair advantage of that person, which is repeated over time, and which inflicts a negative effect on the victim. The seriousness of a bullying act depends on the harm inflicted upon the victim and the frequency of the offensive acts. Power may be, but is not limited to, physical strength, social skill, verbal ability, or other characteristics. Bullying acts by students have been described in several different categories.

A. Physical Bullying includes harm or threatened harm to another's body or property, including, but not limited to, what would reasonably be foreseen as a serious expression of intent to inflict physical harm or property damage through verbal or written speech or gestures directed at the student-victim, when considering the factual circumstances in which the threat was made and the reaction of the intended victim. Common acts include tripping, hitting, pushing, pinching, pulling hair, kicking, biting, starting fights, daring others to fight, stealing or destroying property, extortion, assaults with a weapon, other violent acts, and homicide.

B. Emotional Bullying includes the intentional infliction of harm to another's self-esteem, including, but not limited to, insulting or profane remarks, insulting or profane gestures, or harassing and frightening statement, when such events are considered in light of the surrounding facts, the history of the students involved, and age, maturity, and special characteristics of the students.

C. Social Bullying includes harm to another's group acceptance, including, but not limited to, harm resulting from intentionally gossiping about another student or intentionally spreading negative rumors about another student that results in the victim being excluded from a school activity or student group; the intentional planning and/or implementation of acts or statements that inflict public humiliation upon a student; the intentional undermining of current relationships of the victim-student through the spreading of untrue gossip or rumors designed to humiliate or embarrass the student; the use of gossip, rumors, or humiliating acts designed to deprive the student of awards, recognition, or involvement in school activities; the false or malicious spreading of an untrue statement or statements about another student that exposes the victim to

contempt or ridicule or deprives the victim of the confidence and respect of student peers; or the making of false statements to others that the student has committed a crime, or has an infectious, contagious, or loathsome disease, or similar egregious representations.

D. Sexual Bullying includes harm to another resulting from, but not limited to, making unwelcome sexual comments about the student; making vulgar, profane, or lewd comments or drawings or graffiti about the victim; directing vulgar, profane, or lewd gestures toward the victim; committing physical acts of a sexual nature at school, including the fondling or touching of private parts of the victim's body; participation in the gossiping or spreading of false rumors about the student's sexual life; written or verbal statements directed at the victim that would reasonably be interpreted as a serious threat to force the victim to commit sexual acts or to sexually assault the victim when considering the factual circumstances in which the threat was made and the reaction of the intended victim; off-campus dating violence by a student that adversely affects the victim's school performance or behavior, attendance, participation in school functions or extracurricular activities, or makes the victim fearful at school of the assaulting bully; or the commission of sexual assault, rape, or homicide. Such conduct may also constitute sexual harassment - also prohibited by Whitebead School

### ***Procedures Applicable to the Understanding of and Prevention of Bullying of Students***

#### **1. Student and Staff Education and Training**

1. Whether or not the teacher has met state certification requirements.
2. Whether or not the teacher is teaching under emergency or other provisional status.
3. The bachelor's degree major of the teacher, any other certification or degrees held by the teacher, and the subject areas of the certification or degrees.
4. Whether the child is provided services by teacher aides/paraprofessionals and, if so, their qualifications.

Under the "No Child Left Behind Act" Whitebead School must notify parents when a child is placed in a class for four weeks or longer that is taught by a teacher who is not highly qualified.

### **Non-custodial Parent Access to Student Records**

An Oklahoma statute and a federal law mandate that any information or record relating to a minor child which is available to a custodial parent shall, upon request, be provided to the non-custodial parent unless this right is restricted by a court. The terms "records" and "information" are defined to include information and records maintained by the child's school.

### **Policy Changes**

This comprehensive handbook is not all inclusive of the rules, regulations, and policies of Whitebead School. They may be changed by the administration and/or school board and notice will be given to the student body, verbally or in writing, of the change. If a student or parent/guardian is not sure about a rule or regulation, or has not seen it in writing, they should ask before moving forward.

### **Meningococcal Meningitis**

Senate Bill 1467, which becomes effective November 1, 2006, requires school districts to provide information about the health risk of meningococcal meningitis to parents and guardians of students. It also directs the State Department of Education and the State Department of Health to develop resources and information for local school boards on the prevention of meningococcal meningitis.

This bill states: Information shall be distributed at the beginning of the school year to all parents of students in Grades six through twelve. This information shall include causes, symptoms and the availability, effectiveness, and risks of vaccination.

### ***Is the meningococcal vaccine safe?***

Yes, both vaccines are safe; however, there are risks with any vaccine. About half of the people who get the vaccine will have pain and redness where the shot was given, but because the vaccine is not made from the whole bacteria, it cannot cause bloodstream infections or meningitis. A small percentage of people who get the vaccine develop a fever. Vaccines, like all medicines, carry a risk of an allergic reaction, but this risk is very small.

A few cases of Guillain-Barré Syndrome, a serious nervous system disorder, have been reported among people who got the new vaccine, MCV4 (meningococcal conjugate vaccine). At this time, there is not enough evidence to tell if the vaccine caused the disorder. Health officials are investigating these reports.

### ***Does the meningococcal vaccine work?***

Yes. The new meningococcal vaccine protects about 90 percent of the people who receive it from meningococcal disease caused by types A, C, Y, and W-135. These types cause almost two-thirds of all meningococcal disease in teenagers in the United States. It does not prevent type B, which causes about one third of the cases in teenagers.

### ***Does the meningococcal vaccine prevent all cases of meningitis?***

No. However, 63 percent of the meningitis cases in 18-22 year olds occurring in Oklahoma from 2000 through 2005 could have been prevented by vaccination. The meningococcal vaccine does not include type B. Scientists have not been able to make a vaccine that will protect against type B. Other bacteria and viruses can also cause meningitis. More information about these causes can be found at the National Meningitis Association Web site listed in the box in the next column.

### ***Where can I get the vaccine for my son or daughter?***

If your child has health insurance you can obtain the meningococcal vaccine from your health-care provider.

Local county health departments have the vaccine available now at no charge for all children who:

- Have no health insurance,
- Are Medicaid eligible,
- Are Native American,
- Or whose health insurance does not pay for vaccines,

and are either 15 through 18 years of age, or who do not have a spleen, have certain immune system problems, or who will be traveling to certain parts of the world.

### ***Is this vaccine required to attend school in Oklahoma?***

This vaccine is not required to attend kindergarten through the 12<sup>th</sup> grade in Oklahoma. However, it is required for students who are enrolling in colleges and other schools after high school who will live in dormitories or on-campus student housing.
