Captive Portal

When students connect their iPad to a private network (any WiFi not in the school network), Apple will require the student to register with Captive Portal prior to connecting to the internet. The device will appear to have connected to a network, but any request will fail until the student has logged into Captive Portal.

1. Open the Google Chrome browser using the Google Chrome app.
3. Select Google and enter the student’s username and password.
   (This is the Google Account information.)

*Login will expire every 24 hours or when the student leaves the private network.

*The username and password are case sensitive. Please make sure the username is all lowercase.

Schoology

You will notice there are now two Schoology icons on student devices. One app directs students to the web-version of Schoology, while the other allows students to access the app-version. Both apps will allow students to access their learning materials through Schoology.

Microsoft Teams Virtual Meeting

At times, teachers will use Teams to virtually meet with students.

To access Teams, please follow the steps below.
1. Open the Teams app on the student iPad.
2. Enter the K12 Account information to sign in.
3. After signing in, select Calendar.
4. Find the date for the meeting.
5. Select the Meeting Event.
7. You are now in the meeting!
8. To turn on your camera, select the Camera icon at the bottom of the page.
9. To turn on your microphone, select the Microphone icon.
10. At the end of the meeting, select the Phone to leave the meeting.
