

Igniting Inspiration

October 7th-11th, 2019

8:30 AM-12:30 PM

fall STEM enrichment camps for grades 3-5

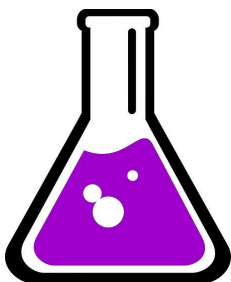

held at Mililani High School

hosted by Mililani Hot Spot Robotics & Mililani High School Science Club

sponsored by the MHS Science Learning Center

Hawaii's Future in STEM

Explore Hawaii through the various pathways of STEM to see the many ways to make a change!

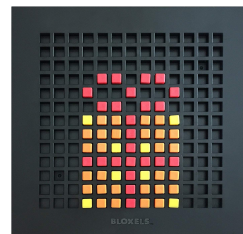

Programming from Scratch

Students explore the world of programming through the Scratch language paired with storytelling and video game creation!

Build Your Own Story

Through the Bloxels EDU platform, students learn the basics of storytelling, design, and game creation!

LEGO Robotics

Using LEGO EV3 kits, students dive into the world of robotics through a series of challenges their robot must overcome!

\$150 Tuition
