7.5 PURCHASES AND PROCUREMENT

Purchases shall be made in accordance with State laws and procurement procedures governing school purchases that are deemed to be in the best interest of the District and are the result of fair and open competition between qualified bidders and suppliers. No bids shall be taken for professional services.

DEFINITIONS

“Commodities” are all supplies, goods, material, equipment, computers, software, machinery, facilities, personal property, and services, other than personal and professional services, purchased on behalf of the District.

“micro-purchases” are purchases with a value of less than ten thousand dollars (\$10,000) when purchased with Federal funds.

“Professional services” are legal, financial advisory, architectural, engineering, construction management, and land surveying professional consultant services.

“Specifications” means a technical description or other description of the physical and/or functional characteristics of a commodity.

Commodities

The superintendent shall develop procedures for the procurement of micro-purchases that provide for the distribution of purchases between eligible vendors to the extent possible.

Purchases of commodities with a purchase price of more than **\$10,000.00** require prior Board approval; however, if an emergency exists, the Superintendent may waive this requirement.

The district shall notify in writing all actual or prospective bidders, offerors, or contractors who make a written request to the district for notification of opportunities to bid. The notification shall be made in sufficient time to allow actual or prospective bidders, offerors, or contractors to submit a bid or other appropriate response. The board shall accept bids submitted electronically by email or fax for any and all district purchases, unless specified to be submitted by other means or methods, and except those bids which have been specified to have a designated date upon which the bids shall be opened. The superintendent shall be responsible for ensuring submitted bids, whether written, faxed, or emailed, are retained in accordance with policy 7.15—RECORD RETENTION AND DESTRUCTION.

The district will not solicit bids or otherwise contract for a sum greater than twenty-five thousand dollars (\$25,000) with vendors that are on the “excluded parties list” if the contract is to be paid from federal grant funds.

All purchases for a Federal program with an estimated purchase price between ten thousand dollars (\$10,000) and twenty thousand five hundred dollars (\$20,500) and all purchases of commodities with an estimated purchase price that equals or exceeds twenty thousand five hundred dollars (\$20,500) shall be procured by soliciting bids. Specifications shall be devised for all commodities to be bid that are specific enough to ensure uniformity of the bid and yet not so restrictive that it would prevent competitive bidding. The bid specifications shall not include the name or identity of any specific vendor. The Board reserves the right to reject all bids and to purchase the commodity by negotiating a contract. In such an instance, each responsible bidder who submitted a bid shall be notified and given a reasonable opportunity to negotiate.

Bids shall be awarded after careful examination of the details of the bid to determine the best overall value to the District. In instances where the low bid was not accepted, a statement of the reasons the low bid was not accepted shall be attached to the bid. Bidders submitting written bids shall be notified in writing of the bid award.

Dardanelle School District 75-04

Whenever possible, a preference will be given to minority and women owned businesses.

The District shall provide a preference to Arkansas residents whenever the District is accepting bids to purchase materials and equipment as part of a construction project if:

- a. One (1) or more Arkansas residents who submitted bids made written claim for a preference at the time they submitted a bid; and
- b. An Arkansas resident's bid does not exceed the lowest qualified bid from a nonresident by more than five percent (5%).

If the qualifications for the Arkansas resident preference are met, then the District shall take the lowest bid from an Arkansas resident regardless of whether the Arkansas resident was one of the individuals who requested the preference.

The following commodities may be purchased without soliciting bids provided that the purchasing official determines in writing that it is not practicable to use other than the required or designated commodity or service, and a copy of the written determination is attached to the purchase order:

1. Commodities in instances of an unforeseen and unavoidable emergency;
2. Commodities available only from the federal government;
3. Utility services;
4. Used equipment and machinery; and
5. Commodities available only from a single source.

The District may purchase a new motor vehicle, other than a school bus, without soliciting bids if, at the time of the purchase, the:

- a. Purchase is from a motor vehicle dealer licensed in Arkansas;
- b. Purchase price of the motor vehicle does not exceed the fleet price awarded by the Office of State Procurement; and
- c. Motor vehicle to be purchased is the same make and model motor vehicle as the make and model the fleet price was awarded for by the Office of State Procurement.

Prospective bidders, offerors, or contractors may appeal to the district's superintendent if they believe the district failed to follow district bidding and purchasing policy or state law.

Any award of a contract shall be subject to revocation for ten (10) working days from:

- The initial awarding of the contract; or
- If an appeal is received, resolution of the appeal.

The intent is to provide prospective bidders, offerors, or contractors the opportunity to appeal the bid award if they believe the facts warrant an appeal. Any appeal shall be **in writing by certified mail** and received by the district office, "attention to the superintendent" within seven (7) calendar days following the initial and revocable award of the contract.

If the district receives an appeal of a bid award, they shall notify, in writing, those prospective bidders, offerors, or contractors who have made a written request to the district for notification of opportunities to bid that an appeal has been submitted. The notification shall state:

- that the contract award has been halted pending resolution of the appeal and could be revoked;
- the reasons for the appeal;
- that the recipient of the letter may respond to the protested issues identified in the appeal;
- the date the decision on the appeal will be made and notification sent;

Dardanelle School District 75-04

- that if the appeal is upheld, the bidding process will be re-opened;
- that if the bidding is re-opened, changes will be made to the request for bids as necessary to satisfy the reasons for upholding the appeal.

The sole authority to resolve any appeal made relating to this policy shall rest with the superintendent. The superintendent's decision shall be final and conclusive. In the event the district upholds an appeal, the sole responsibility of the district to the aggrieved bidder(s) shall be the re-opening of the bidding process.

The District reserves the right to extend or renew a contract that was previously awarded under the process governed by this policy and law, provided the extension or renewal meet the following criteria:

1. The equipment and services provided under the extended or renewed contract meets or exceeds the specifications of the original bid.
2. The extended or renewed contract agreement complies with the state of Arkansas's documentation requirements.
3. The cost of the extended or renewed contract is the same or less than the original contract.
4. The extension or renewal is approved by the local school board.

Professional Services

The District does not use a bidding process when procuring professional services. Instead, when the District needs to procure professional services, the District shall:

1. Select three (3) qualified firms;
2. Determine the most qualified firm by considering, at a minimum, the:
 - Specialized experience and technical competence of the firm with respect to the type of professional services required;
 - Capacity and capability of the firm to perform the work in question, including specialized services, within the time limitations fixed for the completion of the project;
 - Past record of performance of the firm with respect to such factors as control of costs, quality of work, and ability to meet schedules and deadlines; and
 - Firm's proximity to and familiarity with the area in which the project is located;
3. Negotiate a contract for the project with the most qualified firm.

When negotiating a contract, the District and the selected firm shall jointly prepare a detailed, written description of the scope of the proposed services. If the District is unable to negotiate a satisfactory contract with the firm selected, negotiations with that firm shall be terminated and the District shall negotiate a contract with the next most qualified firm. In the event the District is unable to negotiate a contract with any of the original selected firms, the District shall reevaluate the necessary professional services, including the scope and reasonable fee requirements, and return to step one.

The District encourages firms who provide professional services to submit annual statements of qualifications and performance data to the District. The District shall request any additional information as needed for a particular public project.

The funds for the account are those revenues derived from the sale of tickets to athletic contests or other school sponsored activities; the sale of food other than that sold in the cafeteria; the sale of soft drinks, school supplies, and books; and fees charged by clubs and organizations.

Activity funds are considered “school funds” and as such may only be spent for school related purposes.

The Superintendent shall be the custodian of all activity funds and shall be responsible and accountable for the funds. The Superintendent may appoint a co-custodian for each school in the District who shall also be responsible for the activity funds he/she maintains.

7.10 PUBLIC USE OF SCHOOL BUILDINGS

It is the policy of the Board that District school buildings may be used by citizens of the District to conduct lawful meetings for social, civic, or recreational purposes provided such meetings do not interfere with the regular school work and proper protection is afforded the district against the potential costs of such use. The Superintendent shall be responsible, with Board approval, for establishing procedures governing such use of school buildings. The governing procedures shall be viewpoint neutral. Building principals shall be consulted to determine if there exists any conflict with planned school activities prior to other groups being allowed to use school facilities.

The District shall establish a fee schedule for the school facilities the District intends to make available for public use. The fee schedule shall be individualized for each school facility and shall be based on a formula that allows the District to reclaim the actual costs incurred by the District from the use of the facility.

School facilities that do not appear on the District's fee schedule shall not be available to the public.

The District shall also require **any** non-school related group using a district facility to provide proof of having purchased sufficient active and current general liability insurance to cover the damage to, or the cost to entirely replace the structure(s) and furnishing(s), if necessary due to the loss of, or damage to, District property.

Organizations using school facilities assume full and complete responsibility for the conduct of all persons, regardless of age, associated with their use of the facility while they are in or about the facility. Smoking or the use of tobacco or products containing tobacco in any form or the use of drugs or intoxicants is prohibited. Firearms of any kind are not allowed on school property unless the person carrying the firearm is permitted to do so by law as defined in A.C.A. § 5-73-120 or the individual has a valid conceal carry license and leaves the concealed handgun in the individual's locked vehicle.

7.11 USE OF SCHOOL FUNDS FOR NON-SCHOOL RELATED PURPOSES

School funds shall not be used for political, charitable, or humanitarian purposes.

No employee of the District shall use school time, school property, school personnel, or school equipment for the purpose of furthering the interests of any political party, the campaign of any political candidate or the advocacy of any political issue or ballot issue whether partisan or non-partisan. School employees may participate as part of a community organization that is renting a school facility for a political purpose so long as the event is not during school time or the employee takes personal or vacation leave, with prior approval of his/her supervisor, for the time the employee is attending the event.

Any school employee found guilty or who pleads guilty, or nolo contendere to the use of District funds to support any ballot measure shall be immediately suspended, and recommended for termination by the superintendent.

The Board of Directors is not prohibited from expressing an opinion on a ballot measure through the passage of resolution or proclamation. School employees are allowed to verbally express their views on a ballot measure other than in an attempt to persuade a student to the employee's point of view.

District employees and members of the Board of Directors may incur incidental expenditure of District funds for travel costs when speaking at an event in which a ballot measure is discussed if the subject matter of the speaking engagement is within the scope of the person's official duties and responsibilities.

District funds may be used to disseminate public information at a public speaking engagement. The incidental use of District resources may be used to prepare an analysis of the public information if such information is within the scope of the person's official duties and responsibilities.

7.12 EXPENSE REIMBURSEMENT

The requirements of this policy shall govern reimbursement for expenses related to travel and/or attendance at conferences and professional development activities incurred by district employees and/or members of the Board of Directors on behalf of the district. Employees are only eligible for reimbursement for travel expenses for travel which has been approved in advance. Original receipts must accompany all requests for reimbursement to the extent that such receipts are customarily available. For a receipt to be valid it should contain the name of the issuing company, the date, and the amount. No cash advances shall be made for travel. Mileage, lodging, and meal expenses will not be reimbursed when incurred for the personal convenience of the employee and not required by the reason for the travel. Reimbursement for travel shall be for the lesser of the cost between travel by air or by car with some consideration allowed for length of time of the method of travel.

To the extent practicable, employees shall have the district pay initial conference and professional development registration fees and associated necessary materials. In the occasional circumstances where this is not practical, the district shall reimburse the employee for such fees if they were authorized in advance and are supported with proper receipts.

The district will not reimburse expenses of any non-school board member or non-employee who accompanies the school board member or employee during his/her school related travel.

Reimbursable Expenses

Mileage that is driven for a district sanctioned purpose in an employee's personal vehicle shall be reimbursed provided appropriate documentation is submitted establishing the date and time, place, and purpose of the travel. Mileage shall be reimbursed at the current rate authorized by the state/IRS and shall be based on the shortest, most reasonable, route available.

Meals may be reimbursed for travel which necessitates an overnight stay when submitted according to the dictates of this policy. Reimbursement shall be prorated based on the percent of a day the employee is away on travel. For example, if an employee returns from his/her travel in the afternoon, he/she is only eligible for reimbursement for breakfast and lunch expenditures. Meals shall be reimbursed for the actual expense to the extent that they are not lavish and are reasonable based on circumstances. *Meal reimbursement shall not exceed \$10.00 per day for breakfast, \$15.00 per day for lunch, and \$30.00 for supper (this includes gratuity).* Except as otherwise specified by this policy, meals are only reimbursable in conjunction with travel requiring an overnight stay.

Tips paid by a school employee for meals associated with travel as defined in this policy are reimbursable for up to 15% of the cost of the meal provided the employee submits a receipt for the meal as part of an "accountable plan" for reimbursement. Tips are not allowed if an employee is reimbursed using a "per diem" plan.

Meal expenses incurred by the superintendent or other administrators as necessary, in the performance of their duties when meeting with state officials or consultants may be reimbursed on a prorated, per person basis in line with the mandates of this policy. Such expenses shall only be reimbursed when the expenditure is likely to result in a tangible benefit to the district.

Travel necessitating overnight lodging shall be reimbursed to the extent that it is not lavish and is reasonable based on circumstances of the expenditure. Proper documentation establishing the date and time, place, and purpose of the travel must be submitted along with a receipt for the overnight accommodations. To the extent practicable, employees shall receive assistance from administrators or their designee in arranging travel plans to help keep expenses to a minimum.

Expenses not covered

Dardanelle School District 75-04

The district shall not reimburse the following items/categories of expenses.

- Alcoholic beverages;
- Entertainment expenses – including sports or sporting events; pay per view or game expenses at motels;
- Replacement due to loss or theft;
- Discretionary expenses for items such as clothing or gifts;
- Medical expenses incurred while on route to or from or at the destination of the reason for the travel;
- Optional or supplementary insurance obtained by the employee for the period covered during the travel.

Credit Cards

Only those employees specifically issued credit cards to be used in the performance of their jobs to purchase goods, services, or supplies on behalf of the district shall be allowed to use such cards. Employees who incur reimbursable expenses as defined in this policy are expected to pay for them initially by any means they choose and then submit their request for reimbursement. The district assumes no responsibility for the payment of any personal credit card charges incurred by a district employee.

Airport Associated Expenses

Receipts for airport associated expenses are required for reimbursement. All airline flights shall be by coach/economy class. Upon arrival at their destination, employees are expected to take the less expensive option between a taxi and an airport shuttle service to his/her hotel or meeting site. When circumstances dictate that a rental car is necessary and/or the most economical approach to the travel requirements, the least expensive car that will accomplish the job should be rented. The district shall not reimburse for any kind of rental car supplemental insurance.

7.13 MANAGEMENT AND DISPOSAL OF DISTRICT PROPERTY

Definitions

For the purposes of this policy, the following definitions apply:

“Commodities” are all supplies, goods, material, computers, software, machinery and other equipment purchased on behalf of the district having a useful life of more than one (1) year and an acquisition cost of one thousand dollars (\$1,000) or more per unit.

“Fair market value” means the amount a reasonable buyer would be willing to pay for a particular piece of property based on an objective set of criteria, which may include, but are not limited to: any improvements or damage to the property; the demand for similar property; the selling price for the property by the producer of the property or re-sale outlets; and the value of the property as determined by an independent appraiser.

“Real property” is land and whatever is erected or affixed to land, such as structures or buildings.

“Surplus commodities” are those commodities that are no longer needed, obsolete, irreparable, or worn out.

“Surplus real property” is real property that is not presently needed or foreseen to be needed by the District, and that has been authorized for sale as surplus real property by vote of the School Board. Surplus real property may include unused or underutilized facilities.

“Trash” are those items that would otherwise belong to another category of goods or property defined in this policy, but which, due to the property’s age or an act of God, have less value than it would cost to repair the item. Examples could include, but are not limited to, fire damage, vehicle accidents, extreme age, and/or decline in value of the item.

“Unused or underutilized facility” means a school facility or other real property that:

- As a whole or in a significant portion, is not being used for a public educational, academic, extracurricular, or administrative purpose and the nonuse or underutilization threatens the integrity or purpose of the school facility or other real property as a public education facility; and
- Is not subject to either a lease to a third party for fair market value or an executed offer to purchase by a third party for fair market value as of July 30, 2017.

General Policy

The District’s purchases of commodities shall be in accordance with Policy 7.5—PURCHASES AND PROCUREMENT and, to the extent applicable, the procurement requirements of any granting source of funding used to purchase the commodity. The Superintendent shall develop procedures governing the use, management, and dispersal of commodities. At a minimum, the procedures will cover the following topics:

- labeling all commodities;
- establishing adequate controls to account for their location, custody, and security;
- annually auditing the inventory of commodities and updating a listing of such commodities to reconcile the audit with the district’s inventory records. The audit will be documented and account for any transfer and/or disposal of a commodity.
- Disposing of surplus commodities and surplus real property, whether purchased in whole or in part with federal grant funds or with local funds.

The disposal of school property must be for the benefit of the school district and consistent with good business principles.

Disposal of Surplus Commodities

The Board of Directors recognizes that commodities sometimes become of no use to the District and thus meet this policy’s definition of surplus commodities.

Dardanelle School District 75-04

The Superintendent or designee(s) will determine the objective fair market value (FMV) of surplus commodities. The District will strive to dispose of surplus commodities at or near their FMV.

The Superintendent may declare surplus any commodity with an FMV of less than one thousand dollars (\$1,000). Surplus commodities with an FMV of less than one thousand dollars (\$1,000) will be periodically sold by the most efficient, cost effective means that is likely to result in sales at or near FMV.

The Superintendent may submit a list of surplus commodities deemed to have a FMV of one thousand dollars (\$1,000) or greater to the Board of Directors for authorization to sell such surplus commodities. Once the Board of Directors has authorized the sale of such surplus commodities, the Superintendent or designee(s) may sell that surplus commodity as the need arises. Items with a FMV of one thousand dollars (\$1,000) or greater will be sold by the most efficient, cost effective means that is likely to result in sales at or near FMV. If the Superintendent chooses to dispose of the surplus items by bid, the Superintendent or designee may set a minimum or reserve price on any item, and may reject all bids. The Superintendent or designee is authorized to accept the high bid provided the high bid is at or near FMV without further Board action unless the high bid comes under the jurisdiction of Arkansas ethics legislation, in which case the provisions of A.C.A. §§ 6-24-101–107 would apply.

If attempts at public sales fail to produce any interested buyers or bidders, such remaining unsold commodities may then, at the discretion of the Superintendent, be disposed of as scrap or junk or be donated to appropriate charitable or education related entities. Computer or technology equipment will be cleansed of data prior to disposal.

Disposal of Surplus Real Property

The Board of Directors recognizes that real property it owns sometimes becomes no longer of use to the District and thus meets this policy's definition of surplus real property.

By February 1 of each year, the District shall submit a report to the Division of Public School Academic Facilities and Transportation (Division) that identifies all unused or underutilized school facilities in the District and the unused or underutilized school facilities, if any, that are designated in the District's facilities master plan to be re-used, renovated, or demolished as part of a specific committed project or planned new construction project.

If the Division classifies a District facility or District real property as being unused or underutilized, the District may appeal the Divisions determination to the Commission for Public School Academic Facilities and Transportation (Commission).

The District shall make unused or underutilized public school facilities available for lease for no more than FMV to any open-enrollment public charter school (charter) located within the District's geographic boundaries that makes a request under the charter's statutory right of access unless the District makes an affirmative showing by a preponderance of the evidence to the Commission that:

1. The school facility, or the property to which the school facility is attached, will be needed by the District to accommodate future growth of the District; or
2. Use of the school facility or other real property by a charter would have a materially negative impact on the overall educational environment of an educational campus located within five hundred feet (500') of the school facility or other real property sought to be leased by the charter.

The terms of a lease executed between the District and a charter shall provide that the lease shall be cancelled and be of no effect if the charter:

- a. Fails to use the facility or other real property for direct student instruction or administrative purposes within two (2) years of the effective date of the lease;
- b. Closes, has its charter revoked, or has its charter application denied by the charter authorizer; or

Dardanelle School District 75-04

- c. Initially uses the facility or other real property, but then leaves the facility or other real property unused for more than one hundred eighty (180) days.

If requested or agreed to by the charter, The District may sell the unused or underutilized facility or other real property to the charter for FMV.

If the District decides to sell, lease, or otherwise transfer ownership of a District facility, a charter located within the District's geographic boundaries shall have a right of first refusal to purchase or lease the facility for FMV. The charter's right of first refusal shall continue for two (2) years after the date the District last used the school facility or other real property as an academic facility.

If the District decides to sell or lease a District facility or other real property that has been identified by the Division as an unused or underutilized school facility to a third party that is not a charter, then the District may not sell or lease the facility until the later of:

- Two (2) years after the date the facility or other real property is identified by the division as an unused or underutilized public school facility, so long as no charter has claimed a right of access or a right of first refusal; or
- Three (3) years from the date the District facility or other real property has been identified by the division as an unused or underutilized public school facility if the District designated the facility or other real property to be reused, renovated, or demolished as part of a specific committed project or planned new construction project in the District's facilities master plan.

The District may petition the division for a waiver of the time restrictions for the sale or lease of a District's unused or underutilized facility. The petition shall include a statement that the District believes that no charter would be interested in leasing or purchasing the unused or underutilized school facility. If the District receives a waiver, the District may immediately sell, lease, or otherwise dispose of the unused or underutilized facility. The District may appeal the denial by the Division of a waiver to the Commission.

The Superintendent may submit a request to the Board of Directors for authorization to sell surplus real property. Once the Board of Directors has authorized the sale of such surplus real property, the Superintendent or designated individual(s) may sell that surplus real property as the need arises and this policy allows. The Superintendent or designee(s) shall be responsible for getting a determination of the objective FMV of surplus real property. The district will strive to dispose of surplus items at or near their FMV. The real property may be listed for sale with a real estate broker, and the Superintendent or designated individual may contract on behalf of the district to pay the usual and customary sales commission for such transactions, upon sale of the property.

If the Superintendent chooses to dispose of the surplus items by bid, the Superintendent or designee(s) may set a minimum or reserve price on any item, and may reject all bids. The Superintendent or designee is authorized to accept the high bid provided the high bid is at or near FMV without further Board action unless the high bid comes under the jurisdiction of Arkansas ethics legislation, in which case the provisions of A.C.A. §§ 6-24-101–107 would apply.

If attempts at public sales fail to produce any interested buyers or bidders, such remaining unsold real property may then, if agreed to by the Superintendent and Board of Directors, be donated to appropriate education related entities, not-for-profit organizations, the county, city, or incorporated town in accordance with the provisions of state law.

Items obtained with federal funds shall be handled in accordance with applicable federal regulations, if any.

The District may not make a part of the disposal of District real property a covenant that prohibits the sale or lease of former District facilities or other real property to a charter that is located within the District's geographic boundaries.

Dardanelle School District 75-04

- Having the real property preserved, improved, upgraded, rehabilitated, or enlarged by the donee;

7.15 RECORD RETENTION AND DESTRUCTION

It is necessary to maintain district records in a manner that provides for efficient document storage and retrieval and is conducive to eliminating unnecessary record retention. Due to the variety of records that may need to be retained and accessed, the superintendent shall ensure that all staff receive appropriate training to understand this policy. Staff shall also understand the possible ramifications to the district and/or themselves for failure to properly maintain records and follow the requirements contained in this policy.

Definitions

"Directly or directly interested" (hereinafter "directly") means receiving compensation or other benefits personally or to an individual's household from the person, business, or entity contracting with the District.

"Indirectly or indirectly interested" (hereinafter "indirectly") means that a family member, business, or other entity in which the individual or a family member has a financial interest will receive compensation or benefits.

"Record" is defined for the purposes of this policy, as an item or items, whether electronic or material, that are created by, at the request of, or received by and purposefully retained by a board member, administrator, or employee in the ordinary course of District business. Examples include, but are not limited to:

- Any kind of correspondence;

The superintendent shall be responsible for establishing a schedule for the routine destruction of district records that accommodates the needs of the district. The schedule shall specify the length of retention for any records not specifically delineated by this policy and be distributed to staff on a need-to-know basis according to their respective employment duties and responsibilities. The schedule should accommodate the need for records to be stored as a blend of printed, bound and electronically recorded (e.g., audio tape, video tape, micro-fiche, computer disk) material. The superintendent or designee shall be responsible for determining when there is a need to interrupt the routine destruction of records. When the superintendent or designee makes the decision to cease the routine disposal of records, staff affected by the decision shall be promptly informed of the decision and of the nature of records that are to be retained. Such records shall be retained until the superintendent or designee has authorized their destruction. Employee training on the district’s records retention schedule shall specifically include information on the records that may need to be retained due to pending disciplinary or legal actions which otherwise are subject to routine disposal. If an employee has doubt about the need to retain any record otherwise scheduled for destruction, he/she shall consult with the superintendent or designee prior to destroying such records.

The records’ storage system devised by the superintendent and designee(s) shall be organized in a manner that enables the efficient retrieval of data and documents. The district shall have adequate backup of critical data which is stored electronically. The system shall be communicated to employees in a manner that enables them to understand and follow the system’s requirements.

Failure to follow the requirements set forth in this policy may result in disciplinary action against the employee(s), up to and including termination. The district’s board of directors prohibits and will not tolerate any form of reprisal, retaliation or discrimination against any employee who, in good faith, has attempted to comply with this policy.

7.16 INFORMATION TECHNOLOGY SECURITY

The superintendent shall be responsible for ensuring the district has the necessary components in place to meet the district's needs and the state's requirements for information technology (IT) security. To aid the superintendent in creating, monitoring, and updating the District's IT Security system, the superintendent shall appoint an information security officer (ISO). The ISO shall be responsible for:

- a) Overseeing the District-wide IT security system;
- b) Development of District IT policies and procedures;
- c) Development and leading of employee training on the IT Security requirements;
- d) Ensuring compliance with the adherence to the Arkansas Department of Education (ADE) IT Security standards.

The ISO shall work with other IT staff, the superintendent, and district management appointed by the superintendent to develop a District IT Security system necessary to meet the requirements of this policy and ADE's standards. The IT security system shall contain the necessary components designed to accomplish the following:

1. The District IT security system shall contain mechanisms, policies, procedures, and technologies necessary to prevent disclosure, modification, or denial of sensitive information.

For the purposes of the IT Security system, "sensitive data" is any and all student and employee data that is either personally identifiable information (PII) or any non PII information that, if assembled together, would allow a reasonable person to identify an individual. Sensitive data includes, but is not limited to:

- Student personally identifiable information, except as allowed by the Family Educational Rights and Privacy Act (FERPA); and
- Employee personally identifiable information, except as required by Ark. Code Ann. § 6-11-129.

All District employees having access to sensitive information shall receive annual IT security training, which shall emphasize the employee's personal responsibility for protecting student and employee information.

2. Physical access to computer facilities, data rooms, systems, networks and data will be limited to those authorized personnel who require access to perform assigned duties.

User workstations shall not be left unattended when logged into sensitive systems or data that includes student or employee information. Workstation settings shall be set for automatic log off and require a password for the system to restore from screensavers.

All equipment that contains sensitive information shall be secured to deter theft. No sensitive data shall be retained on laptops and/or remote devices (home computer, thumbdrives, cell phones, CDs, etc.) unless it is encrypted in accordance with the Arkansas State Security Office's Best Practices.

Server rooms and telecommunication rooms/closets shall be protected by appropriate access control. The rooms shall be segregated from general school or District office areas to restrict access. Server room access control shall be enforced using *keys or electronic card readers* to allow unescorted access only to IT or management staff who require the access to perform their job functions.

3. Network perimeter controls will be implemented to regulate traffic moving between trusted internal (District) resources and external, untrusted (internet) entities. All network transmission of sensitive data shall enforce encryption where technologically feasible.

The District shall maintain a network configuration management program that includes at a minimum:

Dardanelle School District 75-04

- a) A network diagram identifying all connections, addresses, and purpose of each connection including management approval of all high risk internet facing ports such as mail (SMTP/25), file transport protocol (FTP/20-21), etc.
- b) All public facing (internet) servers and workstations segmented on a demilitarized zone (DMZ) that keeps them separate from the internal District network. Segmentation shall be through a *Core Switch using VLAN and VPN routing*.

All wireless access shall require authentication. The DISTRICT wireless networks will deploy network authentication and encryption in compliance with the Arkansas State Security Office's Best Practices. Scans for rogue wireless devices will be conducted at a minimum monthly. Any Rogue wireless device shall be disabled.

Remote access with connectivity to the District internal network shall be achieved using encryption. Appropriate WARNING BANNERS shall be implemented for all access points to the District internal network.

4. System and application access will be granted based upon the least amount of access to data and programs required by the user in accordance with a business need-to-have requirement.

The District shall enforce strong password management for:

- Employees and contractors as specified in Arkansas State Security Office Password Management Standard.
- Students as specified in Arkansas State Security Office K-12 Student Password Management Best Practice.

User access shall be limited to only those specific access requirements necessary for an employee to perform his/her job functions. Where possible, segregation of duties shall be utilized to control authorization access.

User access shall be granted and terminated upon timely receipt of a documented access request/termination. All access requests shall require approval by the ISO or designee. Ongoing access shall be reviewed for all users at a minimum annually.

Audit and log files shall be generated and maintained for at least ninety (90) days for all critical security-relevant events, including but not limited to:

- Invalid logon attempts;
- Changes to the security policy/procedures; and
- Failed attempts to access objects by unauthorized users.

IT administrator privileges for operating system(s), database(s), and applications shall be limited to the minimum number of staff required to perform these sensitive duties.

5. Application development and maintenance for in-house developed student or financial applications will adhere to industry processes for segregating programs and deploying software only after appropriate testing and management approvals.

Any custom-built student or financial applications or supporting applications that interface, integrate with, or provide queries and reporting to/from student or financial systems shall be developed using a system development life cycle approach that incorporates at a minimum:

- a) Planning, requirements, and design;
- b) User acceptance testing (UAT);
- c) Code reviews; and
- d) Controlled migration to production.

Dardanelle School District 75-04

Any changes to core or supporting applications that provide student or financial processing or reporting shall be implemented in a controlled manner that includes at a minimum:

- Documentation of any change, including changes to both infrastructure and application;
- Management approval of all changes; and
- Controlled migration to production, including testing as appropriate.

6. Monitoring and responding to IT related incidents will be designed to provide early notification of events and rapid response and recovery from internal or external network or system attacks.

The District shall develop and maintain an incident response plan to be used in the event of system compromise that shall include:

- a) Emergency contacts;
- b) Incident containment procedures; and
- c) Incident response and escalation procedures.

7. To ensure continuous critical IT services, the District ISO will develop a business continuity/disaster recovery plan appropriate for the size and complexity of the District IT operations.

The district-wide business continuity plan shall include at a minimum:

- Procedures for performing routine backups at least weekly and the storage of backup media at a secured location other than the server room or adjacent facilities. Backup media shall be stored off-site a reasonably safe distance from the primary server room and retained in a fire resistant receptacle.
- A secondary backup processing location, such as another School or District building, shall be identified.
- A documented calling tree with emergency actions to include:
 - Recovery of backup data;
 - Restoration of processing at the secondary location; and
 - Generation of student and employee listings to ensure an accurate head count.

8. Server and workstation protection software will be deployed to identify and eradicate malicious software attacks such as viruses, spyware, and malware.

Spyware and virus protection software shall be installed, distributed, and maintained on all production platforms, including:

- a) File/print servers;
- b) Workstations;
- c) Email servers;
- d) Web servers; and
- e) Application and database servers.

Malicious software protection shall include:

- Weekly update downloads;
- Weekly scanning;
- The malicious software protection to be in active state (realtime) on all operating servers/workstations.

All security-relevant software patches shall be applied within thirty (30) days and critical patches shall be applied as soon as possible, *utilizing a Microsoft SCCM server*.

7.17 FOOD SERVICE PREPAYMENT

Meal Charges

The district does not provide credit for staff or students to charge for meals, a la carte, or other food and beverage items available for purchase in the school food service areas. Meals, a la carte, or other food and beverage items may be purchased by either providing payment for the items at the time of receipt or by having a prepaid account with the District that may be charged for the items. Staff and parents, or students choosing to do so, may pay in advance for meals, a la carte, or other food and beverage items through any of the following methods:

- Submitting cash or check payment at **your child's school**;
- Depositing funds through the District's online service www.lunchmoneynow.com;

A student's parents will be contacted by authorized District personnel regarding a student's prepaid account balance at the following times **when they student's account becomes empty**:

Alternative Meals

The District provides alternative meals at no cost to students whose accounts do not have enough funds to purchase a meal. Alternative meals are available during **the student's normal lunch time**.

The alternative meals provided to students are available as **a sack lunch with fruit and milk**. Students who have submitted proper documentation to receive a meal modification in accordance with Policy 4.50—SCHOOL MEAL MODIFICATIONS shall receive the same type of substitution for an alternative meal.

7.18 DISPOSAL OF NON-NEGOTIATED CHECKS OR UNCLAIMED PROPERTY

State law specifies how the district is to dispose of retained funds in the form of issued but non-negotiated checks that have been not been presented for payment within one calendar year. The district shall dispose of these retained funds in accordance with the law and remit the amount of all non-negotiated checks to the Unclaimed Property Division of the Arkansas Auditor's Office.

The district shall make a good faith effort to return physical items that have been left on district property to their rightful owners. When contact information is known for the owner of an item of a non-perishable nature left at the district, the district shall use the information to attempt to contact the owner to inform him/her of the location of the item. Owners of such items shall be given at least three weeks to pick up the item he/she left at the district. If the owner fails to pick up the item within the time allotted, the district may dispose of the item in a manner of its choosing.

The district is under no obligation to retain an abandoned, perishable item left on district property.

Notes: The first paragraph of this policy is short, but it has great importance especially if your district has not been submitting reports as the law requires. Checks are considered to be non-negotiated when they have not been paid by the bank from the school district's checking account and shown as cleared on the school district's bank statement. Funds are considered "unclaimed" after a check has been issued and mailed, but is not presented for payment at the bank or appear on the bank statement in the 12 month period after it has been issued. Districts are required to file annual reports by October 31.

The state auditor's website <http://www.auditor.ar.gov/index.html> has a section that does a good job of explaining the requirements. You may choose the time period that works for your district. Enforcing the time limit may depend on the item that has been left behind and possible circumstances surrounding how the item was left at the district.

7.19 SERVICE ANIMALS IN DISTRICT FACILITIES

In accordance with the provisions of the Americans with Disabilities Act and Arkansas statutes, service dogs and trained miniature horses (hereinafter referred to as *service animals*) are permitted for use by individuals with disabilities on district property and in district facilities provided the individuals and their animals meet the requirements and responsibilities covered in this policy.

When an individual with a disability seeks to bring a service animal into a district facility, the district is entitled to ask the individual if the animal is required because of a disability and what work or task the animal has been trained to perform. The district is not entitled to ask for documentation that the animal has been properly trained, but the individual bringing the animal into a district facility will be held accountable for the animal's behavior.

Any service animal brought into a district facility by an individual with a disability must have been trained to do work or perform tasks for the individual. The work or tasks performed by the service animal must be directly related to the handler's disability. Examples of work or tasks include, but are not limited to, assisting individuals who are blind or have low vision with navigation and other tasks, alerting individuals who are deaf or hard of hearing to the presence of people or sounds, providing non-violent protection, pulling a wheelchair, assisting an individual during a seizure, alerting individuals to the presence of allergens, retrieving items such as medicine, providing physical support and assistance with balance and stability to individuals with mobility disabilities, and helping persons with psychiatric and neurological disabilities by preventing or interrupting impulsive or destructive behaviors.

The crime deterrent effects of an animal's presence and the provision of emotional support, well-being, comfort, or companionship do **not** constitute work or tasks for the purposes of this policy; no animal brought solely for any of these reasons shall be permitted on school grounds.

Individuals with disabilities shall be permitted to be accompanied by their service animals in all areas of a public entity's facilities where members of the public, participants in services, programs or activities, or invitees, as relevant, are allowed to go.

A service animal shall be under the control of its handler. A service animal shall have a harness, leash, or other tether, unless either the handler is unable because of a disability to use a harness, leash, or other tether, or the use of a harness, leash, or other tether would interfere with the service animal's safe, effective performance of work or tasks, in which case the service animal must be otherwise under the handler's control by means of voice control, signals, or other effective means.

A service animal shall be groomed to prevent shedding and dander and shall be kept clean of fleas and ticks.

District staff may ask an individual with a disability to remove a service animal from the premises if:

1. The animal is out of control and the animal's handler does not take effective action to control it;
2. The animal is not housebroken; or
3. Making reasonable accommodations for the service animal's presence would fundamentally alter the nature of the service, program, or activity.

If the district excludes a service animal due to the reasons listed above, the district shall give the individual with a disability the opportunity to participate in the service, program, or activity without having the service animal on the premises.

Dardanelle School District 75-04

The District and its staff are not responsible for the care or supervision of a service animal brought onto district property or into district facilities by an individual with a disability. Students with service animals are expected to care for and supervise their animal. In the case of a young child or a student with disabilities who is unable to care for or supervise the service animal, the parent is responsible for providing care and supervision of the animal. Prior to working in the school, any person responsible for providing care and supervision of the animal must go through the same process for background checks as required of all employees of the school system.

The District shall not ask or require an individual with a disability to pay a surcharge, even if people accompanied by pets are required to pay fees, or to comply with other requirements generally not applicable to people without pets.

7.19.1 THERAPY ANIMALS

Definitions

“Therapy animal” means an animal that is a graduate of a program through an assistance dog organization that is a member of Therapy Dogs International or a similar nonprofit organization that attempts to select the highest standard of training for animals for the purpose of emotional support, well-being, comfort, or companionship to school district students. Therapy animals are the personal property of a school district employee or volunteer and are not owned by the school district. Therapy animals do not meet the definition of “service animals” under the Americans with Disabilities Act.

“Therapy animal handler” means an employee of the school district or volunteer who has received training and passed an evaluation from Therapy Dogs International or a similar nonprofit organization for handling a specific therapy animal and who will be handling and overseeing care of that specific therapy animal for the entire time the animal is on a District campus.

The District recognizes that specially trained therapy animals can provide educational benefits for District students. District staff who wish to have therapy animals made available to students shall submit a plan to the building principal. The proposal shall address all of the following areas:

1. The location for the therapy animal to be kept when the therapy animal is on campus, which must meet all of the following conditions:
 - a. Direct access to the outdoors to permit the therapy animal to enter and exit the building without using the building’s interior hallways;
 - b. Free of an intake for the building ventilation system or an independent ventilation system;
 - c. Non-porous surfaces, including carpet-free floors, for easy hair removal, cleaning, and sanitation;
2. The proposed therapy animal or the therapy animal service provider:
 - a. The certification the proposed therapy animal has received, including the training required to receive the certification;
 - b. the credentials of the certification providers ;
 - c. Copy(ies) of the temperance evaluation (s) of the proposed therapy animal;
 - d. The credentials of the temperance evaluator(s);
 - e. Proof Demonstrating the therapy animal is current on all vaccinations;
3. Students:
 - a. The set(s) of students whom the therapy animal is intended to serve;
 - b. Proposed training to be provided to students on the appropriate behavior and treatment of the therapy animal;
 - c. Consequences for inappropriate treatment of the therapy animal;
 - d. The anticipated goals for and intended uses of the therapy animal;
4. The therapy animal’s handler must provide:
 - a. The individual(s) who will be responsible for handling the therapy animal;
 - b. Training obtained by the proposed handler(s);
 - c. The credentials of the providers of the handler’s training;
 - d. Proposed schedule for the handler(s) to provide necessary care for the therapy animal, including exercise, feeding, watering, bodily functions, and any cleanup resulting from caring for the animal; and
 - e. Proof of an insurance policy that provides liability coverage for the therapy animal while on District property.

The building principal may reject the proposal if:

- The proposal does not meet the requirements of this policy;
- The principal does not perceive any educational benefit to be achieved based on the information contained in the proposal;

Dardanelle School District 75-04

- The building principal believes that the time required to meet the needs of the therapy animal is inconsistent with the assigned duties of the school employee(s) proposed as the therapy animal's handler(s); or
- The proposal is otherwise inconsistent with the needs of the school or school building.

The building principal shall submit any proposal the principal desires to be approved to the superintendent, or designee, for final review and approval. If the superintendent, or designee, approves the proposal, the superintendent, or designee, shall submit written approval for an individual documented therapy animal or for a therapy animal service before the individual animal or an animal provided by the therapy animal service may be present on a District campus.

Any approved therapy animal program may have its approval suspended or curtailed, at any time, for any reason. District employees shall not receive any additional pay, stipend, or compensation for providing the therapy animal or for being the handler and/or the owner of the therapy animal. The supervision and care of the approved therapy animal is solely the responsibility of the therapy animal handler(s) when the therapy animal is on a District campus. The therapy animal handler will assume full responsibility and liability for any damage to school district property or injury to district staff, students, or others while the therapy animal is on a District campus. The therapy animal handler must maintain an insurance policy that provides liability coverage for the therapy animal while on District property.

Approved therapy animals must be clean, well groomed, in good health, house broken, and be current on all vaccinations and immunizations. An approved therapy animal shall have appropriate identification identifying it as a therapy animal at all times while on District property. The therapy animal shall be under the control of the therapy animal's handler(s) at all times, which requires the therapy animal be attached to the therapy animal's handler by means of a leash or harness whenever the therapy animal is on District property and outside of its designated room.

The building principal is to receive a verbal report within fifteen (15) minutes of any act of aggression or defensive behavior by the therapy animal towards a human, which includes vocalizations such as growling, or any aggressive or inappropriate behavior by a student directed toward a therapy animal. A full written incident report shall be submitted to both the building principal and the superintendent, or designee, before the close of the following school day. An act of aggression or defensive behavior by a therapy animal shall result in:

- An immediate end of the current student's session with the therapy animal;
- The prohibition of any further interactions between the therapy animal and students for the remainder of the school day; and
- Exclusion of the therapy animal from campus until the superintendent, or designee, completes an investigation and authorizes the therapy animal's return to campus.

At no time will a therapy animal be taken through a District building to meet with a student. Students who have time scheduled with a therapy animal shall go to the room where the therapy animal is located. A student shall not schedule or attend a session with the therapy animal until the student's parents, or the student if over eighteen (18) years of age, provides written authorization for the student to use the services of a therapy animal.

If a student demonstrates symptoms of an allergic reaction during or after a session with the therapy animal, the student's parents shall receive written notification of the possibility of their student's allergy and that the student shall not have any future sessions with the therapy animal. If other student's in the same classroom demonstrate symptoms of an allergic reaction following a student's return to class after a session with the therapy animal, no further sessions with the therapy animal shall be scheduled for students in that classroom and the parents of a student who demonstrated symptoms of an allergic reaction shall receive written notification of their student's possible allergy.

7.23 HEALTH CARE COVERAGE AND THE AFFORDABLE CARE ACT

Definitions

“Dependent”, for purposes of this policy, means an employee’s child(ren) and/or spouse who are enrolled by the employee in health care coverage through the District’s health care plans.

“Full-time employee”, for purposes of this policy, means an employee in a position requiring on average thirty (30) hours of actual performance per week during the annual school year.

“Responsible individual” means a primary insured employee who, as a parent or spouse, enrolls one or more individual(s) in health care coverage through the District’s health care plans.

"Variable hour employee", for the purposes of this policy, means an individual who has no base minimum number of hours of performance required per week.

Health Insurance Enrollment

All full time District employees are eligible to enroll themselves; their spouse, so long as the spouse is not otherwise eligible for insurance through his/her employer's sponsored plan; and their child(ren) in one of the insurance plans through the Public School Employee Life and Health Insurance Program (PSELHIP). Variable hour employees are not eligible to enroll in a PSELHIP plan. If a variable hour employee’s measurement period finds that the employee averaged thirty (30) or more hours per week, then the employee is treated as a full time employee rather than a variable hour employee and is eligible for health insurance. New full time employees have sixty (60) days following the start date of the employee’s contract to elect to enroll in a PSELHIP plan; all new employees shall be informed in writing of the start date of the employee’s contract and that the employee has sixty (60) days from that date to elect PSELHIP coverage. Coverage for new employees who choose to enroll in a PSELHIP plan shall take effect on the first of the month following the date on the enrollment application. Coverage shall be in effect until the end of the calendar year. Employees who experience a Qualifying Status Change Event have sixty (60) days from the date of the Qualifying Status Change Event to file an application to change coverage information. All employees who continue to be eligible may elect to continue coverage and make changes to their PSELHIP plan for the following plan year during the yearly open enrollment period.

The District shall ensure all employees are provided education annually on the advantages and disadvantages of a consumer-driven health plan option and effective strategies of using a Health Savings Account (HSA).

District Contribution to Premiums

At a minimum, the District shall distribute the statutorily required contribution rate to all employees who are enrolled in one of the PSELHIP plans, which shall include any mandatory increases to the contribution rate due to increases to the salary schedule. In accordance with the State Health Insurance Portability Rules (SHIP), the District shall continue to pay the premium contribution for an employee who transfers to another Arkansas school district that also participates in the SHIP through August 31 of the calendar year the employee leaves the district so long as the employee:

- 1) Completes his/her contract with the District;
- 2) Provides the District with notice that the employee is transferring to another district by no later than the Friday following the last student contact day;
- 3) Provides the District with proof of employment at another Arkansas district; and
- 4) Has the employee portion of the premium deducted from his/her end-of-year checks or pays the District business office the employee’s portion of the premium by the 15th of both July and August.

Dardanelle School District 75-04

Measurement Method of Employee Hours

The District uses the look-back method for determining if an employee qualifies as a full-time employee.

W-2

For all full-time employees who are enrolled in a PSELHIP plan, the District shall indicate in box twelve (12) of the employee's Form W-2 the cost of the employee's health care coverage by using code "DD".

IRS Returns

The District will electronically file with the IRS by March 31 of each year the forms required by the IRS on the health insurance coverage of each full-time employee for the previous calendar year, whether or not the full-time employee participates in a health insurance plan through the PSELHIP.

Statement of Return

The District shall send to each full-time employee a Statement of Return (Statement) regarding the IRS Return¹³ filed on the employee. The Statement shall contain: The District's name, address, and Employer Identification Number (EIN) as well as a copy of the IRS Return filed on the employee. The District shall send a copy of the Statement to the employee on or before January 31 of the calendar year following the calendar year the information in the Statement covers. The District shall send only one Statement to the household of an employee who meets the definition of a responsible individual that will include all requisite information for both the responsible individual and the responsible individual's dependent(s). The Statement will be mailed to the employee's address on record.

7.99 BANKING SERVICES

The Board of Education realizes that the school district is a vital part of the local civic structure and contributes a significant balance in terms of investment and operating capital to area businesses and financial institutions. The objective of the Board in managing financial accounts is to represent the best interest of the district while being an ethical partner in the overall growth of the community. To that end, all district funds shall be deposited in banks meeting the following criteria:

1. Qualified banking institutions must operate an actual (not virtual) “full service” facility within the district’s geographic boundaries. “Full Service” is defined as offering a full range of accounts (savings, checking, CDs, money market, etc.) under the on-site control of personnel including at least one officer.
2. Qualified institutions must provide for electronic deposits of district payroll transactions.
3. Qualified institutions must provide on-line banking services which integrate with the District’s electronic accounting system.
4. Qualified institutions must designate a person or persons to oversee district accounts who will be available to discuss issues with district personnel during normal operating hours.
5. Qualified institutions must provide access to credit card services for the district.

The financial institution to be used will be selected by the board every 3 years from a list of pre-qualified institutions based upon their willingness to manage district accounts and their ability to meet the above criteria. Each year the qualifying criteria and level of service provided by the financial institution will be evaluated by the district and is subject to change if the institution fails to continue to meet qualifying criteria or if the level of service provided by the financial institution fails to meet district needs. Written notice shall be provided to the financial institution 90 days prior to termination detailing the reason(s) for the action.

District accounts vary between short term (operating, activity, credit card, etc.), and long term (CDs and other long term investments).

1. Eligible banks are encouraged to submit interest rate quotes on short term accounts every 3 years. Selection will be based on interest rates, service fees, and other terms, conditions, and service history. The district reserves the right to reject all quotes.
2. Long term accounts will remain in their original institution until maturity. Once they mature, CDs and other long term investments may be moved to other qualified institutions based upon the results of comparative interest rate quotes performed by the district treasurer. The highest interest rate quotes will receive the account.

While donations to the district are always appreciated, donations will not entitle a bank to an advantage in any selection process. Additionally, no financial institution will be solicited for contributions by any district representative or entity without approval of the Superintendent.
