Tomball ISD Family,

Tomball ISD is continuing to monitor the evolving status of COVID-19 in our community and is working closely with our state and local health authorities.

We are aware of positive cases in Greater Houston and its surrounding areas. While students are not in class, the District continues to work to limit the spread of illness. In addition to the routine daily cleaning at our facilities, each campus is being deep cleaned with approved cleaning materials.

We will continue to learn and monitor more about COVID-19's presence in our community and will be back in touch very soon.

I know that this situation causes us to have so many questions as parents and staff members. Thank you for working with us to address this situation as best as we can.

We hope you and your family are able to have a restful Spring Break!

Dr. Martha Salazar-Zamora
Superintendent of Schools
