

# PBIS MODEL MATADORS!

## Michael Carr

Michael is a member of the Band whom Mr. Miller describes as always being eager to be a part of the school's band. He appreciates that Michael is always willing to help others and try new things. He has worked hard during marching band season to help our band get better, including learning a new instrument. Michael's willingness to try new things translates to his plan to become a student athlete as well here at Bolsa. He cites his father as the person in his life that has influenced him the most. To Michael, Matador pride is simply rules in life to live by. He appreciates being selected as a Model Matador because it means that he was noticed for doing something positive without even knowing that he was doing something to make himself stand out as a role model.

## Tiffany Pham

Tiffany Pham is a member of the school's AVID program. She is recognized for her consistent positive attitude in everything she does. For Tiffany, Matador Pride is a pride in representing Bolsa Grande's core beliefs and taking part in activities that are an integral part of the school community. Her mother whose hard work and ability to support her family set an outstanding example for her has influenced Tiffany. Her encouragement to build a better life for herself motivates Tiffany every day. As a model matador, Tiffany states she will always try to be a role model for the Bolsa community.

## Samantha Cervantes

Samantha Cervantes is a member of the school's choir and softball team. Coach Terflinger describes her as a hard-working young lady with a great attitude. She points to Samantha's support of her teammates as one of the many ways she makes a difference. As a 10th, generation Matador, Samantha feels Matador Pride resides in the diversity of organizations in which students can be involved. She experiences this pride as she performs on the stage and competes on the softball field. Samantha is grateful for the influence her mom has provided as a strong woman, who is respectful of everyone, has a voice in life and who is certain that her words have meaning. She is proud to be selected as a Model Matador, knowing that it means she is being recognized for what she does here at Bolsa and is respected for how she conducts herself and the work she puts in as a student and athlete.

## Mychaella Sieve

While Mychaella is both class President and Assembly Commissioner for ASB, her classroom teachers for the way she exemplifies Matador Pride also recognize Mychaella. As her student, Mrs. Shaver describes Mychaella as always willing to participate with a smile on her face and more than willing to help those around her. She is responsible, hardworking, kind and truly a team player. For Mychaella, Matador Pride means finding gratification in all that happens here at Bolsa and taking pride in seeing everyone participate and enjoy what they are doing. I want others to reach their goals as well as pursue their dreams.

Mychaella's mom is the most influential person in her life. By watch her mom and aspiring to be like her, Mychaella strives to have her mom's kind heart and positive spirit. Her involvement in school has also been inspired by having a mom who took advantage of every opportunity to get involved and be active in the lives of others. Being selected as a Model Matador is important to Mychaella because it tells her that she is viewed by teachers and students alike as someone whose actions have made a positive impact on the lives of fellow students and the school community.
