

To: Community of Rising Star  
Subject: School changes due to COVID 19  
From: Rising Star ISD Administration

The continued uncertainty of the recent COVID outbreak has the entire country at odds about daily activities. Schools in our area and others across the state are trying to provide for the needs of our school children in a safe and efficient way. The health officials seem to be sure that the spread of the illness is continuing and we are encouraged to take every precaution against that event. Lack of close contact with others is considered effective. As a result, the schools have taken measures that are drastic and unusual.

RSISD will be engaged in off campus education methods starting Monday, March 23. This will continue through at least April 3. Teachers will be contacting students and parents as to the form this will take. If you have specific questions you should contact the offices (254-643-3521, HS) or Elem. (254-643-2431).

Students aged 18 and below may pick up breakfast at the elementary school starting on March 23 between 7:30 am and 8:30 am. Lunch will be between 11:30 and 12:30, this will continue on weekdays thru April 3. The students must be present to get the meals. Please stay in your car when coming to receive the meals.

We must all practice the usual means of stopping the spread of infectious diseases. Hand washing, avoiding large gatherings, omit touching others, and general good sense in preventing transmission of germs.

Thank you for your cooperation and support.

Robby Stuteville, Superintendent of Schools  
Rising Star ISD
