

We make it easy for teachers to invite industry professionals virtually into the classroom through our online platform, powered by Nepris and bring real world relevance to learning.

Connecting Industry to Every Classroom

What is Nepris?

Nepris is an online platform that allows you to share your skills with the next generation without leaving your workplace.

Connect with classrooms across the Inland Empire via webcam to provide insight into your world of work, mentor or evaluate student projects and introduce them to a world of possibilities that can help transform their learning.

Let's Connect!
