

The Coos Bay School District is committed to providing students and their parents with the best career and college exploration tools available. We are excited to announce that students in grades 7-12 now have FREE access to Naviance, a premiere college and career online planning tool.

The Naviance Online platform enables Students and Parents to:

- **Explore colleges and college majors**
Students can research and compare colleges and universities.
- **Complete career interest inventories**
The career planning and assessment tools in Naviance allow students to realize their strengths, goals, skills, knowledge, values, constraints, and interests in future careers thereby enabling them to make more informed academic decisions.
- **Learn about careers and career pathways**
Through self discovery and collaboration with parents, teachers and school counselors, Naviance enables students to find college and career pathways that are right for them.
- **Search local and national scholarships**
Students can explore thousands of scholarship opportunities that may be available to them.
- **Streamline the college application process**
When students get ready to apply for college Naviance can streamline the college application process.

To access the **Naviance** students will login to their Student Portal. From there they will need to login into Clever and find the Naviance icon on their Clever Dashboard. From there they can begin to explore colleges and careers.

The counselor will provide classroom instruction to all 7th grade students on how to utilize Naviance to explore careers and colleges or other post high school options.
