

## Abbott ISD Third St. Water Line Project

To the parents, staff, visitors, and community members of Abbott ISD. Starting on Monday, October 1, Third St. (the street that runs parallel with the football field) will be under construction. The water line that runs down Third Street will be upgraded to a larger capacity water line and this will tremendously benefit Abbott ISD with the irrigation of the baseball field and future softball field. We anticipate that the project will be completed by October 31. Although the project is set to start on October 1 and be completed by October 31, this may not be the case. Uncontrollable variables such as weather can affect the start and end date to this project. You can find a map that displays the adjusted route to the drop off and pick up lines at the school's website under the "News and Announcements" section or here is a direct link: <https://www.abbottisd.org/apps/news/article/922562>

The construction project will create adjustments to our day-to-day drop off and pick up logistics for the duration of the project.

Here are some of the adjustments and key points to keep in mind:

- The drop-off and pick-up location is the same.
- Third St. from FM 1242 to Houston St. will be closed during the project.
- Second St. (the alternative route, please see the map) will be a one-way street from the hours of 7:00 am to 8:00 am and 2:30 pm to 4:00 pm.
- Watch and adhere to signage as changes take place.
- No parking on Second St. will be permitted.
- Please drive cautiously, we have students that walk to and from school and construction workers will be in the area.
- Football parking on the visitor's side will be evaluated on a week-to-week basis.

We appreciate your help and apologize for any inconveniences that may occur. If you have any questions, please call Eric Pustejovsky at (254) 582-3011.

Thank You
