

## Check Your Google Chrome Extensions:

- 1) Find the 3 vertical dots in the top right corner of Google Chrome

- 2) Go to More Tools – then Extensions

- 3) When the window comes up with your installed extensions, inspect the list. You should only have things from trusted sources – Google, Webex, etc. Please see the example below. If you have others like Word to PDF, Coupons, Shopping, Search Enhancer, etc please click the Remove button immediately.
