Dear Parents,

The reading and language arts teachers are again assigning summer reading for students in grades 4-8. The main purpose of summer reading is to maintain and develop the students' reading skill level. When school resumes in August, successfully completing summer reading gives all of the students an opportunity to participate positively in the discussions and projects initiated through the reading. The teachers in the various grade levels incorporate these books into the first projects, quizzes, or tests of the year. Your son/daughter's teacher will determine all projects, tests and assessments in the fall. Your cooperation in helping your student complete this reading is most appreciated.
