Three in a Row Game Board

This is a game for two or three players. You will need color counters (a different color for each player), game board, pencil, paper, and a calculator.

**Step 1:** Prior to your turn, choose one number from Box A and one number from Box B. Multiply these numbers on your scratch paper. Be prepared with your answer when your turn comes.

**Step 2:** On your turn, announce your numbers and the product of your numbers. Explain your strategy for finding the answer.

**Step 3:** Another player will check your answer with a calculator after you have announced your product. If your answer is correct, place your counter on the appropriate space on the board. If the answer is incorrect, you may not place your counter on the board and your turn ends.

**Step 4:** Your goal is to be the first one to make “three-in-a-row,” horizontally, vertically, or diagonally.
