

October 17, 2018 Student Senate Agenda and Notes

1. Review Purpose of Student Senate:

- To respond to results from the spring Student Survey
- To elicit student feedback on Gabrielino's overall school program for the purpose of improvement
- To gather student opinions as these relate to the work of the Data Team

2. Examine Selected Student Survey Results (hard copies on your table, please share):

- Page 21 (Q21) How often do you feel stress and anxiety?
- Page 22: (Q22) My stress and anxiety is caused by:
- Page 41: (Q42) When do you most often seek help from your teachers?
- Page 66: (Q65) On average, how much focused time do you spend on homework every night?

Reflect on these responses--what do you have to add?

3. Review Purpose of Data Team work for the 2018-2019 School Year:

The Data Team is examining ways that the daily schedule can be modified to achieve time to support students within the school day. Here is The Why:

"To provide the gift of intervention and support to struggling students and the gift of time and relief to high-achieving students."

- Some GHS students need academic intervention. These students do not come to after-school tutoring.
- Some GHS students are tackling challenging classes with many other commitments. They need time to do homework.
- Most GHS students are stressed and anxious. They all need embedded down-time to improve mental health.

4. What would you like the Data Team (and all school community members to consider when determining a future bell schedule)?

Please fill out chart on table as a group.

Many thanks!

From, The Whole Gabrielino Community
