

6th Grade Gold Team Language Arts

We don't want to *spill the beans*, but we will be starting our figurative language unit in language arts after Thanksgiving break. We would like to *kill two birds with one stone* with this unit. First, the 6th grade standards require us to teach it. Second, it is fun! The students will find out that understanding figurative language is *a piece of cake* once they really know what to look for. We all know that sometimes figurative language can be *as clear as mud*, but we think that after a few weeks of instruction, the students will be *as bright as a button*. Please enjoy and add to your child's learning because they are all *blessed with brilliant brains*.
