\$\$\$ MONEY

How much do you understand about money? (besides spending it.)

What is the difference between credit cards and debit cards? How many different "interest" can money have? Do you know how to budget your money?

Here is your opportunity to learn about money and how it works in your life. Rancho Starbuck Intermediate School is offering an exciting 6-week after school learning experience to study FINANCIAL LITERACY. The curriculum is provided by Junior Achievement and taught by Rancho teachers, parent volunteers and Biola University Graduate Accounting students. We are in great need of parent volunteers this year so please consider partnering with us as we seek to educate Rancho students about the life-long reality of managing money.

There is a \$25 donation per student for this program. Each student will receive a comprehensive workbook about financial management and spend a school day on a field trip visiting Junior Achievement Finance Park near Griffith Park where students will participate in an "adult for the day" simulation.
