

Opt out Form

We will rock your world with color but never take your health for granted!! Our Color dust is safe and non-toxic. The coloring used is made of cornstarch, water and basic food coloring. All students will be provided with sunglasses to protect their eyes from color dust. This will be a fun, messy, yet safe activity. However if messy just doesn't sound like fun, you may choose to opt out of being colored with color dust by filling out the form below.

Children who opt out may color on their jog A Thon shirts with fabric markers before the event.

The following student(s) do NOT want color dust applied on October 19th.

Student Name: _____ Room #: _____
