

AP Chemistry Students

This summer assignment will help prepare you to be ready to start AP Chemistry on the first day of school. The questions will be due on Friday August 24, 2018. You will need to log into google classroom and enter the code: **sxusdgv**.

Start at the beginning and work your way through. Read the study material then print the questions off and answer them and **SHOW** your work on all math related material. These papers need to be put into a folder and turned in for your credit.

If you do not have a printer please let me know so I can print all the questions off for you. This is not an excuse to not do the assignment. Also if you do not have internet I can print the packet off for you. Once again this is not an excuse to not do the summer assignment.

Thank you,

Mrs. Perry
