National Random Acts of Kindness Week

Random Acts Of Kindness Day was first created in Denver, Colorado in 1995. Random Act of Kindness Week began in 2018 with the week of February 17 is Random Act of Kindness Week.

The goal of Random Act of Kindness Week is to change schools, the workplace, families, and society through kindness. We have to make kindness the norm, not the exception. What if we started being intentional about not only noticing and absorbing them when they happen to us, but creating those moments for others? What if we made it a point to go slightly outside of our comfort zone at least once a day to make someone smile? To share a compliment with a friend? To reach out to a family member we haven’t spoken to in awhile? What if we stopped thinking about them as random acts of kindness and started thinking about them as intentional acts of kindness? One small act can make a huge difference.
