Weekly Construction Status Update

Center Line Public Schools

Bid Package 18-3

Peck Elementary & Early Childhood Center

October 25, 2019
The first step to laying up the brick is to dampproof the footing.

With the bearing wall construction nearing completion the brick work is set to begin.
Most of the exterior walls are built and the shape of the school can be seen in this photo taken from the top of the stockpiled dirt.
Iron workers installing wind bracing and bridging in the steel joists over the multi-purpose room.
Site work continues with the installation of the stormwater drain system. Backfill material is being compacted and rolled with a ‘sheepsfoot’ roller to help prevent settlement.
Two Week Look Ahead

- Site storm water pipe installation will continue through next week.
- Masons will continue working on gym exterior walls. Bearing masonry walls will continue in area B around the court yard.
- Metal roof decking will be placed over the joists.
- The roofing contractor will be mobilizing mid week and will start in the upper elementary wing.
- Concrete placement in area C classrooms will begin Tuesday 10/29.
- The concrete floor in the mechanical and electrical rooms are scheduled to be poured this week.
- Temporary window installation will begin on Monday 10/28.
