

Collierville Schools Parents/Guardians,

We are pleased to announce that our District has continued its partnership with the anonymous reporting application, STOPit. STOPit is a technology platform which will help to deter and mitigate bullying, potential school threats, and other inappropriate behaviors. Our aim with STOPit is to keep our students safe and cultivate a kind and respectful school climate.

STOPit is a tool that works by empowering students to protect themselves and stand up for their peers online. Students will have access to the STOPit mobile app, which has two features:

**-Report** can be used to anonymously report incidents to designated school administrators.

**-Messenger** can be used to engage in anonymous two-way communication with designated school administrators.

Additionally, there is a **GET HELP** feature that connects the user to hotlines and websites, and direct phone lines for more crisis services.

Collierville High School's designated administrators will have access to STOPit's backend incident management system, DOCUMENTit.

#### **How do I get started?**

To use STOPit and make an anonymous report, download the STOPit app from the App Store or Google Play onto a cellular device, ipad, or desktop computer, and use the corresponding access code for Collierville High School: **CHSDragons2019**

Once you have downloaded the STOPit app, you will be guided to report your concern, and the information will be shared with your school's designated administrators.
