

## ROGERS INDEPENDENT SCHOOL DISTRICT

1 Eagle Drive Rogers, TX 76569 | Ph: 254-642-3802 | Fax: 254-642-3851

March 23, 2020

Rogers ISD Community,

Each Rogers ISD campus has begun working with students to implement their remote instruction plan. These plans look slightly different at each campus, but each campus that will be using high-tech (electronic devices) as part of their plan will also have a low-tech, and no-tech (paper packet) option. I do want to reemphasize that our goal is for student engagement throughout this closure.

As for the length of closure, at this point, the entire state is under the order of Governor Abbott to be closed through April 3rd. It will be his office that will give us further direction.

Today at 4:00 pm, Bell County Judge, David Blackburn, issued a “shelter in place” order for all of Bell County. **HOWEVER, Judge Blackburn was very specific that this does not apply to what schools are doing all across our county. We can still serve meals, pass out instructional materials, and all of the other things we are doing for students.**

If you know of students who need meals, please have them sign up. They only have to sign up ONE time (not each day). These meals are available at NO COST for anyone in the community who is 18 or younger. This information can be found on our website or here <https://forms.gle/vkWPHbhxJr294jgc9>

For instructional information for your student, please contact your child’s teachers directly or contact the campus principal for specifics. Students in Middle School and High School should be closely monitoring their school email as that is how teachers are often communicating.

Please check our district website [www.rogersisd.org](http://www.rogersisd.org) or subscribe to our district Facebook or Twitter (@RISDeagles) for more information and updates.

Joe Craig  
Superintendent
