August 24, 2020

The district was notified today of positive Covid-19 case that has affected six middle school teachers. Teachers will be quarantined for 14 days from the date of exposure, August 21st. During the quarantine the district will arrange for coverage for the classrooms with substitutes or other staff members, and if quarantined teachers are able to work, they will join classrooms remotely through videoconferencing.

If the district is unable to provide classroom coverage though substitutes and staff, under essential worker guidelines, quarantined teachers are allowed to return to work as long as they are being screened and are asymptomatic.

Per our established protocol, all areas of the building that the individual used in the past several days have been thoroughly cleaned and disinfected the spaces. The positive Covid-19 case did not have close contact with any students since school was not in session. We have been in contact with the Warren County Department of Health and will take the steps necessary to protect the health of our students and staff.

We are closely monitoring this situation and will provide you with updates as we know more. If you have questions, please do not hesitate to contact me.

Sincerely,

John Elkin
Middle School Principal
