March 6, 2020

Dear DV Families,

With news about the spread of COVID-19 changing daily, we at Delaware Valley Friends School continue to monitor the situation closely and to follow the instructions of health and legal professionals. We are working actively with our students and faculty to reinforce the importance of basic practices that are effective in reducing the spread of germs while trying to reassure our community that, according to local health officials, as of today there is a low immediate risk to residents of our local area. Even so, the school is preparing for the eventuality that the virus will spread to our area and it is possible that some or all schools may be directed to close by the health department. If that happens, we want to be prepared to continue the important work of educating our students even if from a distance.

To that end, please take a few minutes to complete the very brief survey linked below to help us plan and prepare for the possibility that the school might need to deliver education remotely for a limited time. The survey is brief and should take less than five minutes to complete.

Thank you for your assistance in completing this survey no later than Monday, March 9.

In Friendship

Kirk Smothers
Head of School
