

I would like to welcome you to the CPA web site. We are very proud of our school and especially our students. We started as a Kindergarten through fifth grade school and are now Pre-Kindergarten through twelfth grade.

We have a one to one initiative for our students in which our elementary and middle school students have chrome books and our high school students have a MacBook. All CPA students are exposed to technology on a daily basis by using Google classroom and tech books.

Students may begin earning Carnegie credits in the sixth grade. Our high school students have the opportunity to enroll in dual enrollment classes with Northwestern State University and earn an associate degree. We are extremely proud of our students that have begun their college career. Students may also attend Community

We offer Cross Country, tennis and robotics at CPA. The high school students have the opportunity to return to their homebased school to play sports or play in the band.

We look forward to a challenging and rewarding year. We would love for you to be a part of our school community. Come visit and eat lunch with us.
